BULLETIN OF UNEMPLOYMENT AND SICKNESS BENEFIT STATISTICS

OCTOBER, 1946

1. GENERAL

This summary, issued by the Acting Commonwealth Statistician (Mr. J. Barry), covers the operations of the Unemployment and Sickness Benefits Act, 1944, during the month of October, 1946 and the four months ended October, 1946.

The Act provides for the payment of benefit to persons whose normal earnings have been interrupted through unemployment or temporary incapacity. The Act also provides a third class of benefit - designated Special Benefit - which gives a measure of assistance to those persons who, on account of some special circumstances, cannot comply with the statutory requirements relating to unemployment or sickness benefit, and who are prevented from earning a livelihood and are in need.

The number of recipients of benefit do not embrace the total unemployment and sickness in the community. Unemployment or sickness of less than seven days' duration is not covered due to the provision in the Act of a "waiting period" of this length of time during which no benefit is payable. Permanent incapacity is not included as this is covered by the Invalid and Old Age Pensions Act. The application of a "means test" excludes another group from benefit. The inclusion of claims rejected - see 2(i) - completes the coverage of all persons applying for benefit, irrespective of whether their claims are approved or rejected.

The number of "persons on benefit" in this summary relates to principal beneficiaries who would normally be breadwinners. Dependents on such beneficiaries are not included.

The information contained in this bulletin has been compiled from data made available by the Department of Social Services.

Due to delay in the receipt of information in respect of some beneficiaries, the figures are preliminary and subject to revision. This applies particularly to discontinuances and results in persons on benefit at the end of the month being overstated.

2. SUMMARY

(i) Claims Rejected: The number of applicants for benefit whose claims were rejected during the four months ended October, 1946, is shown in the table below. No further dissection of these rejected claims has been made but it is hoped to extract further information in the near future.

4. BENEFITS DISCONTINUED

(i) Duration: The number of weeks during which benefit was paid for each of the 41,160 cases of benefit discontinued during the four months ended October, 1946, is shown in the following table:-

TOTAL:	21,416	3,083	24,499	13,702	2,746	16,448	35,277	5,883	41,160

(a) Includes Special Benefits (159 males, 54 females, 213 persons).

Of the 41,160 benefits discontinued during the four months ended October, 1946, 15,002 (36 per cent.) were in receipt of benefit for five weeks and over, 17,554 (43 per cent.) for four weeks and over, 20,937 (51 per cent.) for three weeks and over, 25,072 (61 per cent.) for two weeks and over, 34,276 (83 per cent.) for one week and over, whilst 6,884 (17 per cent.) received benefit for less than one week.

Average duration of unemployment benefits discontinued was shorter than that of sickness. Twenty-two per cent. of unemployment and nine per cent. of sickness cases were in receipt of benefit for less than one week, whilst for durations of less than three weeks the percentages were 58 and 36 respectively.

(ii) Reasons for Cessation: Of the 24,499 cases of unemployment benefit terminated during the four months ended October, 1946, 23,139 (94.4 per cent.) secured employment or failed to report (which in most cases means that the beneficiary has resumed employment without advising the Department of Social Services), 742 (3.0 per cent.) transferred to Sickness Benefit or to another district and 179 (0.7 per cent.) transferred to Rehabilitation Allowance.

Of the 16,448 cases of sickness benefit terminated, 14,244 (86.6 per cent.) recovered from their illness and presumably resumed employment, 763 (4.6 per cent.) were treated as permanently incapacitated which, in practically every case, means that they were transferred to Invalid Pension, 624 (3.8 per cent.) transferred to Unemployment or to another district and 295 (1.8 per cent.) died.

TOTAL PERSONS.

5. PERSONS ON BENEFIT AT END OF OCTOBER, 1946

(i) Proportion per 10,000 in Employment: The proportion of persons on benefit at 26th October, 1946, to the estimated number of employees in employment was approximately 64 per 10,000, comprising 28 unemployment, 35 sickness and 1 special cases per 10,000. The following table shows the proportions for males and females separately:-

APPROXIMATE NUMBER OF PERSONS ON BENEFIT AT 26TH OCTOBER, 1946 PER 10,000 WAGE AND SALARY EARNERS IN EMPLOYMENT : AUSTRALIA

TOTAL:	6,444	248	6,692	6,738	1,777	8,515	13,242	2,172	15,414

(a) Includes Special Benefits (60 males, 147 females, 207 persons).

The table above shows that the incidence of unemployment and sickness amongst males is greater in the higher age groups, 62 per cent. of the unemployment and 60 per cent. of the sickness cases occurring in ages of 40 years and over. The decline in numbers of females over the age of 24 years is due to the smaller numbers in employment in these groups, through large numbers quitting their employment on marriage.

6. UNEMPLOYMENT - CLAIMS ADMITTED DURING THE FOUR MONTHS ENDED OCTOBER AND PERSONS ON BENEFIT AT END OF OCTOBER, 1946

Cause of Unemployment: The following table analyses the reasons for termination of employment as stated by beneficiaries admitted to benefit during the four months ended October, 1946 and by those who were on benefit at 26th October, 1946.

Discharges and lay-offs are separations on the initiative of the employer, the broad distinction being that a discharge is final and there is no likelihood of the person being re-engaged, at least in the near future. A lay-off is a separation of a temporary nature with the idea that the job will be available again to the employee as soon as circumstances permit.

Quits are separations which take place on the initiative of the employee.
