**AUSTRALIAN BUREAU OF STATISTICS
CANBERRA**

Reference No. 14.8

FOR RELEASE : NOON 23 AUGUST 1976

**REGISTRATIONS OF NEW MOTOR VEHICLES, MAKE OF VEHICLE : AUSTRALIA
JUNE 1976**

This statement, which contains information on make and horsepower of new motor vehicles registered during June 1976, is supplementary to that issued on 21 July 1976 (Reference No. 14.6). A quarterly bulletin *Motor Vehicle Registrations* (Reference No. 14.2) giving information in greater detail will be issued at a later date.

2. The statistics are derived from information as recorded on registration documents. The figures include vehicles with diplomatic and consular plates and Australian Government-owned new vehicles other than those belonging to the defence services. Although the position varies from State to State, in these statistics, 'registrations' generally means registrations processed by the motor vehicle registration authorities in the States and Territories during the period. In some States, registrations of new motor vehicles are not recorded in the statistics until some time after registration.

3. The boundary between light commercial type vehicles and trucks has been defined by confining the

former to vehicles with a carrying capacity of less than 1 tonne. Because of the absence of details of carrying capacity on the registration records in certain States, it has been necessary to impute carrying capacity by reference to R.A.C. horsepower rating in order to ensure consistent treatment across Australia. This affects some vehicles in the vicinity of 1 tonne carrying capacity.

4. In all States, 'capital city' registrations refer to vehicles for which the address of the registered owner is located within the capital city statistical division. These statistical divisions are re-defined from time to time usually as the result of information available from periodic population and housing censuses. On 1 January 1976 the capital city statistical division in New South Wales was expanded and prior figures for that State are not directly comparable. All registrations in the Australian Capital Territory are included under 'capital cities' while those in the Northern Territory are included under 'other areas'.

5. Any discrepancies between totals and sums of components are due to rounding.
