III	<u>Lorries and Omnibuses</u> - Type of Fuel Used: Australia and States	16

PREFACE

Particulars of registrations of new motor vehicles (including Commonwealth-owned vehicles and excluding motor cycles) for the month of February, 1952 have been made available by the Acting Commonwealth Statistician (Mr. S. R. Carver). Details include the make and horse-power of new motor vehicles registered in each State, the Australian Capital Territory and the Commonwealth ~~(excluding Northern Territory)~~.

Separate particulars are shown for (a) Cars and (b) Other Motor Vehicles, Cars being dissected into (i) Sedans and (ii) Other Types, whilst Other Motor Vehicles are dissected into (i) Utilities, (ii) Panel Vans, (iii) Lorries, (iv) Omnibuses, (v) Station Wagons and (vi) Other Types.

A further table shows the total number of registrations of new lorries and omnibuses dissected according to type of fuel used (petrol and diesel fuel).

Monthly statistics are available as from July, 1951 and have been compiled in collaboration with Government Statisticians from data made available by the Road Transport Authorities in each State.

Vehicles such as the Land Rover and Willys Jeep are included under the heading of the body type constructed on the chassis but in general these vehicles are classified as "utility".

Vehicles which have been excluded from tabulations are as follows:-

Air Compressor	Grader
Bull-dozer	Industrial Barrow
Concrete Mixer	Mobile Crane
Crawler Tractor	Rotary Hoe
Electric Welding Plant	Street Sweeper
Fork or Air Lift	Tractor
Front End Loader	

Separate registrations of trailers or any other vehicle without an engine are also excluded.

For various reasons the totals may not agree in all cases with those compiled by the registration authorities in each State but the difference will be small and of no significance. For all States the tabulations include all registrations of new vehicles which passed through the Central Registration Authority up to and including the last day of the month. In regard to Western Australia all metropolitan (Perth) registrations of new vehicles during the month are included, but the majority of country registrations arrive at the central office too late for inclusion in the tabulations for the month to which they refer and are incorporated in the tabulations for the month following.
