**AUSTRALIAN NATIONAL ACCOUNTS 1967-68
PRELIMINARY STATEMENT NO. 2
PERSONAL INCOME BY STATES**

This statement makes available information on the State distribution of personal income and personal disposable income which will be published in greater detail in the comprehensive printed publication, "Australian National Accounts 1967-68", later this year.

2. Personal income is the total income, whether in cash or kind, received by persons normally resident in Australia. It includes both income received in return for productive activity (such as wages, salaries and supplements, incomes of unincorporated enterprises etc.) and transfer incomes (such as cash social service benefits, interest etc.). Personal income also includes any property income received by non-taxable organisations such as private schools, churches, charitable organisations, etc. However, it excludes any income which might be said to accrue to persons in the form of undistributed company income and retained investment income of life insurance, etc. funds. A full description of the items comprising personal income is given in Part III of "Australian National Accounts, National Income and Expenditure, 1953-54 to 1966-67".
3. All figures contained herein are as revised to date and replace those previously published. Estimates for 1966-67 and 1967-68 are preliminary and some figures for earlier years are still subject to revision.
4. Any discrepancies between totals and sums of components in tables are due to rounding.
5. The incomes received by persons in each State and the amount by which they increased in 1967-68, expressed in terms of total personal income and in per capita terms, are set out in the following tables.
