INTRODUCTION

This Bulletin contains particulars of the density of population and dwellings in each Local Government Area and Non-municipal Town in each State and Territory of the Commonwealth, at the Census of 30th June, 1961.

The figures herein have been obtained from machine tabulation and very little further amendment is expected.

The areas of Non-municipal Towns were determined from maps available in this Bureau and those of Local Government Areas were supplied by State Authorities.

The boundaries of local government areas for the purpose of the 1961 Census, except for two minor changes in Western Australia which became effective in April, 1961, were those in existence at 30th June, 1961.

All tables in this Bulletin exclude particulars of full-blood aboriginals and of dwellings occupied solely by them.

In accordance with standard practice, Census particulars were not required of diplomatic representatives of foreign governments and the High Commissioners representing the Governments of the members of the Commonwealth of Nations, with their families and staffs. The greater proportion of these persons were in Canberra, Australian Capital Territory, where the number of persons excluded from the Census was approximately 800, and the number of dwellings excluded 200.

A list of 1961 Census publications already issued appears at the end of this Bulletin.

DEFINITIONS:

Migratory: The term "Migratory" used in the following tables refers to persons not elsewhere enumerated who at midnight between 29th and 30th June, 1961, were on ships in Australian waters, or were travelling on long-distance trains, motor coaches or aircraft.

Occupied Dwelling: An occupied dwelling is any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or only part of a building. The term has therefore a very wide reference and includes, in addition to houses and flats, a great variety of "dwellings" ranging from a single-roomed shack to a multi-roomed hotel or institution. Occupied dwellings are classified into "private" and "other than private" dwellings.

Private Dwelling: Private dwellings are further classified into the following four categories -

Private House: Private Houses include houses, sheds, huts, garages, etc. used for dwelling purposes, and shared private houses for which only one Householder's Schedule was received.

Share of Private House: A Share of a Private House is a portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was received.

Flat: A Flat is part of a house or other building which can be completely closed off and which has its own cooking and bathing facilities.

Other Private Dwelling: These include private dwellings such as rooms, apartments, etc., which are parts of buildings but are not self-contained units.

Other than Private Dwelling: These include Hotels; Motels; Boarding Houses, Lodging Houses and Hostels; Educational, Religious and Charitable Institutions; Hospitals; Defence and Penal Establishments; Police and Fire Stations; Clubs; Staff Barracks and Quarters, etc.

The information in this Bulletin relates to the density of population and dwellings, both private and non-private. The average number of inmates only for occupied private dwellings.

TABLE 1. - NEW SOUTH WALES - DENSITY OF POPULATION AND CO. OF DWELLINGS IN LOCAL GOVERNMENT AREAS AND NON-MUNICIPAL TOWNS, CENSUS, 30TH JUNE, 1961

(Exclusive of full-blood Aborigines and of dwellings occupied solely by them)

NOTE - Under the system of local government in New South Wales, there were, at Census date, 92 Municipalities and 133 Shires. Municipalities are usually urban in nature, but some are, for Census purposes, classified as rural or partly rural. In these cases, any Municipality or part of a Municipality which is regarded as rural has been clearly indicated in the table. Shires, on the other hand, are usually rural in nature but within Shires, Non-municipal Towns of 1,000 persons or more are, for Census purposes, regarded as urban and shown separately. They are indicated in the table by the letters "N.M.". In addition, part of Lake Macquarie Shire has been included in the Newcastle Urban Area and regarded as urban.

In addition to the area covered by the local government system there was an unincorporated area of about 37,000 square miles which constituted about 11.95 per cent. of the total area of the State.

TABLE 2. - VICTORIA - DEPARTS OF POPULATION AND OCCUPIED DWELLINGS BY LOCAL GOVERNMENT AREAS AND NON-MUNICIPAL TOWNS, CENSUS, 30TH JUNE, 1961

(Excludes of full-blood Aboriginals and of dwellings occupied solely by them)

NOTE - Under the names of local government in Victoria there were, at Census date, 71 Cities, Towns and Boroughs and 130 Shires. Cities, Towns and Boroughs are usually urban in nature, but some are, for Census purposes, classified as rural or partly rural.

In these cases, any City, Town or Borough, or part thereof, which is regarded as rural has been clearly indicated in the table. Shires, on the other hand, are usually rural in nature, but within Shires, Non-municipal Towns of 1,000 persons or more are, for Census purposes, regarded as urban and shown separately. They are indicated in the table by the letters "N.M.". In addition, parts of several Shires have been included in urban areas and regarded as urban.

In addition to the areas covered by the local government areas there was an unincorporated area of 196 square miles which constituted about 0.23 per cent. of the total area of the State.

(a) Private and non-private.

(b) Indicates those local government areas where a boundary change occurred between the 1954 and 1961 Censuses. In many cases this boundary change resulted in a change in the population of the local government area. In order to eliminate population changes due to boundary changes and to provide a comparison with the 1961 population figures, the 1954 local government area populations shown in the table have been adjusted, where necessary, to the boundaries used in 1961.

TABLE 1. - QUEENSLAND - DENSITY OF POPULATION AND OCCUPIED DWELLINGS IN LOCAL GOVERNMENT AREAS AND NON-MUNICIPAL TOWNS, QUEENSLAND, 30th JUNE, 1961

(Exclusive of full-blood Aboriginals and of Dwellings occupied solely by them)

NOTE - Under the system of local government in Queensland there were, at Census date, 19 City and Towns and 112 Shires. Cities and Towns are regarded as urban in nature. Shires are usually rural in nature, but within Shires, Non-municipal Towns of 1,000 persons or more are, for Census purposes, regarded as urban and shown separately. They are indicated in the table by the letters "N.H."

In addition to the area covered by the local government system, there was an unincorporated area of 1,022 square miles which constituted about 0.15 per cent. of the total area of the State.

For the 1961 Census the Metropolitan Area of Brisbane was redefined to include the City of Brisbane, the City of Redcliffe and the urban part of Pine Rivers Shire. The City of Brisbane, because of its size, has been separated into 55 defined statistical areas.

TABLE 4. - SOUTH AUSTRALIA - DENSITY OF POPULATION AND OCCUPIED DWELLINGS IN LOCAL GOVERNMENT AREAS AND NON-MUNICIPAL TOWNS, CENSUS, 30TH JUNE, 1961. (Exclusive of full-blood Aboriginals and of Dwellings occupied solely by them)

NOTE - Under the system of local government in South Australia there were, at Census date, 42 Municipalities and 100 District Councils. Municipalities are usually urban in nature, but some are, for Census purposes, classified as rural or partly rural.

In these cases, any Municipality or part of a Municipality which is regarded as rural has been clearly indicated in the table.

District Councils, on the other hand, are usually rural in nature but within District Councils, Non-municipal Towns of 1,000 persons or more are, for Census purposes, regarded as urban and shown separately. They are indicated in the table by the letters "N.M.". (N.M. indicates Non-municipal Town)

Only about 15 per cent. of the area of South Australia was covered by the local government system, the remaining 85 per cent. being unincorporated for local government purposes.

(a) Private and non-private.

(b) Indicates those local government areas where a boundary change occurred between the 1954 and 1961 Censuses. In many cases this boundary change resulted in a change in the population of the local government area. In order to eliminate population changes due to boundary changes and to provide a comparison with the 1961 population figures, the 1954 local government area populations shown in the table have been adjusted, where necessary, to the boundaries used in 1961.

(c) Includes alightory.

TABLE 5. - NEWCASTLE AUSTRALIA - DENSITY OF POPULATION AND OCCUPIED DWELLINGS IN LOCAL GOVERNMENT AREAS AND NON-MUNICIPAL TOWNS, 30th JUNE, 1961.

(Excludes of full-blood Aborigines and of Dwellings occupied solely by them)

NOTE - Under the system of local government in Western Australia there were, at Census date, 19 Cities and Towns and 126 Shires which covered the whole area of the State. Cities and Towns are regarded as urban in nature. Shires are usually rural in nature, but within Shires, Non-municipal Towns of 1,000 persons or more are, for Census purposes, regarded as urban and shown separately. They are indicated in the table by the letters "N.H.". In addition, part of Kalgoorlie Shire has been included in Kalgoorlie and Burdekin and regarded as urban.

(a) Private and non-private.

(b) Indicates those local government areas where a boundary change occurred between the 1954 and 1961 Censuses. In many cases this boundary change resulted in a change in the population of the local government area. In order to eliminate population changes due to boundary changes and to provide a comparison with the 1961 population figures, the 1954 local government area populations shown in the table have been adjusted, where necessary, to the boundaries used in 1961.

(c) The Town of North Fremantle was amalgamated with the City of Fremantle as from 1st November, 1961.

(d) Sun-Childford Shire - Part in Metropolitan Area, part in Sun Division - total for Shire - 9,397 persons, 2,266 occupied dwellings.

(e) For total population of Kalgoorlie and Suburbs see State Summary at end of Table.

(f) Includes migratory.

TABLE 6. - TANZANIA - DENSITY OF POPULATION AND OCCUPIED DWELLINGS IN LOCAL GOVERNMENT AREAS AND NON-MUNICIPAL TOWNS, CENSUS, 30th JUNE, 1961.

(Inclusive of full-blood Aborigines and of Dwellings occupied solely by them)

NOTE - Under the system of local government in Tanzania there were, at Census date, 49 Municipalities (including the Cities of Dar es Salaam and Zanzibar) which covered the whole of Tanzania. Some Municipalities include both urban and rural areas, the former being Non-municipal Towns with a population of 750 persons or more. Tanzanian Municipalities are therefore more akin to the Cities and District Councils than to the Municipalities of other States.

Non-municipal Towns (within boundaries defined for Census purposes) are indicated in the table by the letters "N.M."
