## MEAT STATISTICS, AUSTRALIA JULY 1978 (PRELIMINARY)

### INQUIRIES

If you want to know more about these statistics ring Ms Nereda White on Canberra 525337, or our State office, or write to Information Services, ABS, P.O. Box 10, Belconnen, A.C.T. 2616.  
For copies of this publication contact Information Services, Canberra 526627 or State offices.

### EXPLANATORY NOTES

The information included in this bulletin is restricted to preliminary estimates of livestock slaughtering, meat production, exports of fresh, frozen and processed meat and stocks of frozen meat. Revised statistics on livestock slaughtered and meat produced for the month of July will be published in the bulletin *Meat Statistics, Australia* (7205.0), expected to be released in December.

The statistics on slaughtering and meat production are based on a monthly collection from abattoirs and other major slaughtering establishments and include estimates of animals slaughtered on farms and by country butchers.

Care should be taken when using this information as the figures only relate to slaughtering for human consumption and do not include animals condemned or those killed for boiling down. Also, definitions of livestock categories may differ between States and within States, particularly with regard to calves.

Details of seasonally adjusted figures for the components of total meat production are published in Table 2. The seasonally adjusted figures shown have

been calculated using revised factors and are not comparable with series published prior to March 1978. Information on the methods used in seasonally adjusting these series is contained in *Seasonally Adjusted Indicators, 1977* (1308.0).

### Rounding

Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

### Related Publications

More detailed information on slaughtering, production, exports, prices, values, etc., is provided in the following publications:
