EXPLANATORY NOTES

Introduction

This publication continues the series of monthly statistics on the lending operations of finance companies compiled from returns collected under the *Census and Statistics Act 1905*.

2. Detailed notes on the finance companies statistical collection and finance companies statistics (e.g. definitions of data items) are available in the July 1983 issue of this publication.

Presentation

3. Tables 1 to 3 show details of finance companies' transactions other than those involving bills of exchange, loans to related non-finance companies and liquidity placements. These latter transactions are covered in Table 4.

Comparability

4. A further dissection of 'amount financed' by purpose of loan for instalment credit for retail sales provided by finance companies is given in the monthly publication *Instalment Credit for Retail Sales, Australia* (5631.0).

5. The statistics on finance for housing presented in this publication are not comparable with those published in the monthly publication *Housing Finance for Owner Occupation, Australia* (5609.0) as the definitions, scope and coverage are not the same.

Interpretation

6. Figures for each State are compiled on the basis of business written or recorded by finance companies (or branches of finance companies) operating in that State but this does not necessarily indicate that the funds so provided are for use within that State. The extent to which funds may be raised in one State for use in another is not known.

7. This publication incorporates revisions made to previous statistics in this series.
