DEFINITIONS AND EXPLANATORY NOTES

This Bulletin contains an analysis of registrations of new motor vehicles for the period shown.

"Registrations" means registrations passed through the Central Registration Authority during the period. Occasionally, in some States, registrations of new motor vehicles effected in Branch offices are not passed into the statistics until some time after registration. In Western Australia, each month extra-metropolitan registrations are incorporated in the tabulations for the month following.

Metropolitan registrations are shown separately. In Western Australia "metropolitan" means the Metropolitan Traffic Area of Perth; for all other States it means the Metropolitan Statistical Area as defined for statistical purposes i.e. the capital cities; in the Australian Capital Territory, it covers all registrations. All Northern Territory registrations are shown as extra-metropolitan.

Vehicles owned by the Commonwealth Government are included, except those belonging to the Defence Services. For all new motor vehicles (excluding motor cycles), the analysis relates to make, horsepower and type of vehicle registered. Motor cycles are shown according to make of vehicle. Motor Cars are classified according to whether they are (1) sedans or (2) tourers, sports cars, convertibles, etc. All other vehicles are classified as listed below. Diesel-powered vehicles are shown separately from petrol-driven vehicles.

All figures for horsepower are shown in terms of R.A.C. rating in whole numbers. For example, an R.A.C. rating of 17.9 h.p. is recorded as 17 h.p.

Monthly statistics of new motor vehicles registered in the detail provided in this Bulletin are available from July, 1951 and have been compiled in collaboration with Deputy Commonwealth Statisticians from data made available by the Registration Authority in each State. Corresponding particulars for motor cycles are not available for periods prior to January, 1953.

CLASSIFICATION

Registrations are classified in these statistics according to eleven major types of vehicles as set out below. Examples are given of vehicles for which the classification may not be indicated explicitly by the brief description used for "major type". Three-wheeled vehicles are classified according to type of body,
