Population and dwelling totals for individual collector's districts in all States and Territories are available on request from the office of the Commonwealth Statistician in Canberra. This information for any individual State is also available from the office of the Deputy Commonwealth Statistician in that State, or for the Northern Territory from the Chief Statistics Officer, Darwin.

Tabulation of Census data relating to the characteristics and geographical distribution of population and dwellings will proceed throughout the latter part of 1972 and most of 1973. Publications will be issued progressively. Because of the magnitude of the publication programme many of the tabulations produced from the Census are available well in advance of their publication date. Wherever it is possible to do so without disrupting the main publication programme, data will be made available on request in advance of formal publication. Additionally, a great deal of information is tabulated which will not be published.

3 Users requiring information about either the extent of the tabulations to be produced, the current availability of data or the projected publication programme are requested to write to the Commonwealth Statistician, Canberra (or to the appropriate Deputy Commonwealth Statistician if information for only one State is required).
