

INITIATION CEREMONY

**PREPARED
TO PARTY.**

Everyone gets excited about party time.

If you're new to the scene, here's a little friendly advice...

Everyone knows that taking illicit drugs can be harmful.

You don't have to take drugs to have a good time.

However, if you are going to take drugs:

- Start with a small amount
- Tell a friend what you take
- Avoid mixing drugs
- Drink plenty of water
- If you feel unwell, go to the medical room for help

If you plan to play up, plan to play safely.

Grab a party pack (condoms and lube) on your way in.

It's easy to get caught up in the heat of the moment and the sex scenes at parties may be different to what you're used to, so plan to stick to your rules about safe sex.

Play up and have fun.

For more information call the AIDS Council in your State or Territory, or go to: www.afao.org.au/parties
