EXPLANATORY NOTES

Introduction

1. This publication presents statistics of secured housing finance commitments made by significant lenders to individuals for the construction or purchase of dwellings for owner occupation. For detailed information on the scope and coverage of these statistics and definitions of data items refer to the July 1986 issue of this publication.

2. While the statistics are described as being for calendar months, it should be noted that:

(i) in the case of trading banks and some of the larger savings banks, the data relate to a month ending on the last Wednesday; and

(ii) in the case of other lenders, some have accounting periods which do not correspond exactly to a calendar month and their figures are used without adjustment.

Seasonal adjustment

3. Details of methods used in seasonally adjusting original series are available on request.

4. Large fluctuations in series as a result of irregular influences are not removed by seasonal adjustment. Particular care should therefore be taken in interpreting individual month-to-month movements.

Unpublished data

5. More detailed classifications of the data in this publication may be made available on request. Generally a charge is made for providing this information. Inquiries should be made to the officer named in the Phone In-

quiries section of the inquiries box at the front of this publication or by writing to Private Finance Section, ABS, P.O. Box 10, Belconnen, A.C.T. 2616.

Revisions

6. Revisions to previously published statistics are included in issues of this publication as they occur.

Commitments not advanced at end of period

7. In principle, commitments not advanced at end of period presented in Table 2 are derivable by adding total commitments less cancellations of commitments less commitments advanced during the period to the balance of commitments at the end of the previous period. In practice, however, revisions and other adjustments may mean that such a derivation is inexact.
