AUSTRALIAN DEMOGRAPHY.

PREFACE.

The present issue, which is the fortieth of its series, furnishes particulars for 1922 and previous years in respect of the following matters :—

- I. Population (including migration).
- II. Births.
- III. Deaths.
- IV. Marriages.
- V. Rates and Percentages in respect of births, deaths, and marriages for 1922.

Somewhat extensive details are given in each case in respect of 1922, accompanied by brief summaries for the eleven years, 1912-22.

For the purpose of economizing space, Section VI., Statistical Summary, which, in the issue of this Bulletin for 1917 occupied 32 pages (pp. 254 to 285), has again been omitted. For statistics of population, births, deaths, and marriages prior to 1912 reference must consequently be made to the pages of the 1917 Bulletin.

I take this opportunity of expressing my thanks to the various State Departments responsible for the registration of births, deaths, and marriages for the courteous assistance rendered by them in supplying the data for the compilation of Vital Statistics; to Mr. H. J. Exley, the officer in charge of the compilation in this Bureau, for the unremitting care and attention which he has devoted to his onerous duties; and to the staff under his control for their cordial co-operation.

CHAS. H. WICKENS,
Commonwealth Statistician.

Note.—The persons whose ages were not ascertained at the 1921 Census have been proportionately distributed among the various age groups, and the same plan has been followed in regard to the 55 persons who died in 1922, whose ages were not stated in the certificates of death.

(a) The population of Sweden, as ascertained at the Census of 1890 and divided into five age groups, has been taken as the standard population.
