BUILDING APPROVALS : AUSTRALIA, MAY, 1962

1. Statistics of building approvals have been compiled from (a) permits issued by local government authorities in the areas subject to building control by these authorities, and (b) contracts let or work commenced and day labour projects authorized by governmental authorities. They relate only to approvals for buildings, as distinct from the construction of roads, bridges, railways, earth works, water storage, etc. Values shown represent the estimated cost when completed (excluding cost of land) of new buildings and alterations and additions to existing buildings. Additions of £5,000 and over are included with new buildings in all States, except New South Wales, where they are included in "alterations and additions". Building is classified as "Private" or "Government" according to ownership.

2. For purposes of comparison, it should be borne in mind that the volume of building approvals is affected from month to month by the number of large projects such as blocks of flats and multi-storey office buildings approved in particular months and also by the administrative arrangements of local government and semi-governmental authorities.

3. During May, 1962, approvals were granted for the construction of 8,495 new houses and flats valued at £27,505,000. The total number of individual living units approved for the three months ended 31st May, 1962, was 23,198 valued at £75,687,000 compared with 18,878 units valued at £61,431,000 for the three months ended 31st May, 1961. New buildings, other than houses and flats, valued at £20,883,000 and alterations and additions valued at £7,252,000 were approved during May, 1962. The total value of all buildings approved during May, 1962, was £55,640,000 which was £2,589,000 more than the total value for May, 1961, and £4,243,000 less than May, 1960.

4. The following tables show further details of building approvals for May, 1962 in comparison with details for earlier months.
