I hereby certify that I carried out some of the research leading to the following publication whilst I was a visitor at the Laser Physics Centre, Australian National University.

Publication Type: Conference Paper
Publication Title: Radiative decay of bright solitons in nonlocal nonlinear media with random noise
Published in: Nonlinear Photonics 2012

Publication Type: Regular Article
Publication Title: Stability of solitary waves in random nonlocal nonlinear media
Published in: Phys. Rev. A 85, 063803, 2012

Fabian Maucher, 8. May 2015.

Thanks a lot for your help! I downloaded your article and it's all good now.
Would you mind signing that attached letter? Since some research leading to that article was done in LPC, we need to keep track of it and that letter is how we do it. Thanks!

Cheers,

Sonia Padrun
Departmental Administrator
Laser Physics Centre

Dear Sonia,

greetings to beautiful Australia!

Yes, part of the research leading to that publication was done while I was visiting LPC. A link to that pdf:

[http://www.researchgate.net/profile/Stefan\\_Skupin/publication/256296863\\_Radiative\\_decay\\_of\\_bright\\_solitons\\_in\\_nonlocal\\_nonlinear\\_media\\_with\\_random\\_noise/links/02e7e5256c40a12d1b000000.pdf](http://www.researchgate.net/profile/Stefan_Skupin/publication/256296863_Radiative_decay_of_bright_solitons_in_nonlocal_nonlinear_media_with_random_noise/links/02e7e5256c40a12d1b000000.pdf)

Best wishes,  
Fabian.

P.S.: Please let me know if you encounter any problems acquiring that pdf.

Dear Fabian

I am the administrator of the Laser Physics Centre (ANU, Canberra) where you spent some time in 2011. I am currently updating our publication database, and I would need a PDF for that article:  
<http://dx.doi.org/10.1364/NP.2012.NW2D.7> Would you mind emailing it to me at [lpc.rspe@anu.edu.au](mailto:lpc.rspe@anu.edu.au) ? Also, please tell me if your research leading to that publication was done while you were a LPC visitor? Many thanks!
