Information and Statistical Consultancy

The Australian Bureau of Statistics is Australia's national statistical authority. It collects, compiles and disseminates information on a wide range of economic, social and demographic topics for Australia, its States and Territories.

In addition to Dissemination of Statistical information through print and electronic media, the Bureau offers *Information and Statistical Consultancy Services*, as a means of handling complex questions, and projects involving the collection, use or interpretation of statistics.

ABS consultants provide expert advice and accurate information to meet a wide variety of statistical needs personally, quickly and professionally. Our consultants can help you in -

- | | |
|---|---|
| ☐ Meeting your specialised information needs | ☐ Designing a sample |
| ☐ In-depth data investigations | ☐ Designing a survey questionnaire |
| ☐ Collecting information | ☐ Processing data |
| ☐ Designing a survey | ☐ Analysing data |
| | ☐ Assessing tenders |

Call your local *Information and Statistical Consultancy* to see about the many ways we can help you. Our inquiry staff will be happy to answer any questions you may have about the service we provide.

Canberra (06) 252 6627

NOTES

The aim of this publication is to provide the user with a selected range of the latest statistics available at the end of each month of issue. Consequently the dates and periods shown are not always the same for each table but are in each case the latest figures available at that time.

As a general rule footnotes do not appear in this publication.

Seasonal adjustment

2. Seasonal adjustment is a means of removing the estimated effects of normal seasonal variations from economic time series so that the effects of other influences are more obvious. Seasonal variations are the systematic (though not necessarily regular) intra-year movements of economic time series. These are often the result of non-economic phenomena, such as climatic changes and regular religious festivals (e.g. Christmas and Easter).

ABS publications

3. Current publications issued by the ABS are listed in the Catalogue of Publications, Australia (1101.0), which is available free of charge from any ABS Office.

Unpublished statistics

4. In some cases the ABS can also make available information which is not published. This information may be made available in one or more of the following forms: microfiche, photocopy, data tape, computer printout, manually extracted tabulation. Generally a charge is made for providing unpublished information.

ABS Electronic data

5. A wide range of data is available electronically.

DISCOVERY

Key *656# for selected current economic, social and demographic statistics.

TELESTATS

Foreign trade statistics tailored to users' needs are available on TELESTATS, Phone (06) 252 5404.

AUSSTATS

Thousands of up-to-date time series are available on AUSSTATS through CSIRONET, Phone (06) 252 6017.

CDATA86

CDATA 86 comprises a database, on CD-ROM (COMPACT DISC - READ ONLY MEMORY), of the 1981 and 1986 Population Census and the 1985-86 Retail Census summary data, map boundary data and SUPERMAP software for accessing and manipulating data and for producing tabulations and maps.

For further information regarding CDATA 86, contact the ABS by telephoning (03) 615 7000, ask for Information Services.

**Recorded message services
DIAL-A-STATISTIC**

This service has the latest Victorian and Australian figures on UNEMPLOYMENT and AVERAGE WEEKLY EARNINGS. Ring (03) 615 7788.

CPI HOTLINE

This service has the latest Consumer Price Index and movement data for Melbourne and Australia. Ring (03) 615 7777.

Symbols and other usages

- n.a. not available
- n.e.c. not elsewhere classified
- n.p. not available for publication but included in totals where applicable
- n.y.a. not yet available
- p preliminary - figure or series subject to revision
- r figure or series revised since previous issue
- .. not applicable
- nil or rounded down to zero
- break in continuity of series (where a line is drawn across a column between two consecutive figures)
- * subject to sampling variability too high for most practical purposes

Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

R.A. CROCKETT
