INQUIRIES

If you want to know more about these statistics ring Mr Cyril Rees on Canberra 52 5558 or our State office or write to Information Services, Australian Bureau of Statistics, P.O. Box 10, Belconnen, A.C.T. 2616.

PRODUCTION SUMMARY NO. 28 : FOOTWEAR
AUSTRALIA : DECEMBER 1976

Annual figures shown in this publication are derived by aggregating monthly production and relate to production during the year ended 30 June. They may differ from annual manufacturing census figures relating to the census year which, if the case of businesses unable to report on a June year basis, include details in respect of substitute accounting periods.

From July 1973, the basis of collection of footwear statistics was changed from type of construction to type of material used in the uppers, and the statistics below are presented on this basis.

As from July 1975 production statistics exclude production of single establishment manufacturing enterprises employing less than four persons and production of establishments predominantly engaged in non-manufacturing activities but which may carry on, in a minor way, some manufacturing.

However, except for a few commodities, the effect on production levels and movements is marginal. An indication of the approximate magnitude of the break in comparability may be obtained by comparing annual 1974-75 data which are shown in this publication on both the old and the new basis.

(*000 pairs)

Footwear with outer soles of rubber or synthetic material (other than composition leather or textile)

Period	Uppers of leather									
	Uppers of rubber or synthetic material (other than textile)					Shoes, sandals, slippers and other footwear				
	Boots					Shoes, sandals, slippers and other footwear
