MAIN FEATURES

Commercial Finance commitments made by significant lenders in July 1986 totalled $6,162.1 million, down $1,093.3 million (15.1%) on June 1986.

Fixed loan commitments were $2,018.0 million, a decrease of $696.1 million (25.6%) on June 1986, while new and increased lending commitments under revolving credit were $4,144.1 million, a decrease of $297.2 million (6.7%) on June 1986.

Commitments by trading banks ($4,776.9 million) again rose as a proportion of total commitments from 71.3% in June 1986 to 77.5% in July 1986. The Finance, Investment and Insurance grouping of industries continued as the major borrower with commitments under fixed and revolving credit arrangements of $1,601.4 million, representing 26.0% of total commitments.

EXPLANATORY NOTES

Introduction

This publication presents statistics of commercial finance commitments made by significant lenders to government, private and public enterprises and non-profit organisations as well as to individuals (for investment and business purposes). Please note that lease finance commitments are excluded (refer *Lease Finance, Australia* 5644.0).

Scope

2. The following types of lender fall within the scope of these statistics: banks (trading, savings or other), corporations registered under the *Financial Corporations Act 1974,* insurance companies, superannuation funds and providers of consumer finance registered with State credit tribunals not otherwise included above. The last two types of lender listed were included in the scope from July 1986 but the effect on the statistics was insignificant.

Coverage

3. The statistics cover only those of lenders listed in paragraph 2 that are defined as 'significant lenders'. Significant lenders are the largest lenders, accounting in aggregate for at least 95 per cent of the Australia total and at least 90 per cent of each State total of commercial finance commitments made by all lenders within the scope of the statistics.

Coverage revision

4. The list of lenders covered by the statistics requires revision periodically to ensure the inclusion of new significant lenders and the exclusion of insignificant lenders from the monthly statistics. The latest revision took place in respect of July 1986, based on total commercial finance commitments made by all types of lenders listed in paragraph 2 during the calendar year 1985. Each of the lenders defined as a significant lender following this latest revision committed funds of more than $98.4 million during the calendar year 1985. The coverage revision had no significant effect on the statistics.

5. Significant lenders accounted for the following percentages of total commercial finance commitments made by all lenders during the calendar year 1985—

	Per cent
Australia	96.2
N.S.W.	96.4
Vic.	96.5
Qld	97.0
S.A.	98.0
W.A.	90.1
Tas.	94.2
N.T.	95.6
A.C.T.	97.4

6. The percentage contributions of significant lenders to total lending by type of lender for the calendar year 1985 were—

	Per cent
Banks — trading	100.0
— other	90.3
Finance companies	96.5
Money Market corporations	95.1
Other Lenders	37.8

Statistical period

7. While the statistics are described as being for calendar months, it should be noted that:

(i) in the case of *trading banks,* the data relate to a month ending on the last Wednesday;

(ii) in the case of *other lenders,* some have accounting periods which do not correspond exactly to a calendar month and their figures are used without adjustment.

Definitions and descriptions of data items.

8. *Lending commitmens*. A lending commitment is a firm offer to provide finance which has been or is normally expected to be accepted. The following are included: commitments for hire purchase agreements for commercial purposes; commitments for debt participation in leveraged lease agreements; commitments that involve or make provision for the issue of bills of exchange to be accepted, discounted or drawn; commitments accepted and cancelled in the same month; and commitments for standby arrangements are included.

9. *Fixed loan facilities generally involve—*

(a) a commitment for a fixed amount for a fixed period for a specific purpose;

(b) a schedule of repayments over a fixed period; and

(c) repayments which reduce the liability of the borrower but do not act to make further finance available.

10. *Revolving credit facilities generally have the following characteristics—*

(a) a commitment for a credit or borrowing limit is given for a specific period after which the commitment is reviewed;

(b) the extent of the borrowings used at any time during the period may be for any amount up to the authorised limit; and

(c) repayments (other than of charges and interest) made during the period reduce the extent of borrowings used and thereby increase the amount of unused credit available up to the authorised limit.

Unpublished data

11. More detailed classifications of the data in this publication may be made available on request. Generally a charge is made for providing this information. Inquiries should be made to the officer identified for phone inquiries at the front of this publication or by writing to Private Finance Section, ABS, PO Box 10, Belconnen, ACT 2616.

Revisions

12. This publication incorporates revisions made to the previous statistics in the series.

Total credit limits at end of period

13. In principle, total credit limits at the end of period for revolving credit presented in Table 4 are derivable by adding new and increased lending commitments during the period less cancellations and reductions of credit limits during the period to the balance of credit limits at the end of the previous period. In practice, however, revisions and other adjustments such as the transfer of an existing fixed credit facility to a revolving credit facility will mean that such a derivation is inexact.
