EXPLANATORY NOTES

Introduction

This publication contains detailed information regarding registrations of new motor vehicles and motor vehicles on register and includes details of utilities and panel vans classified by tare, and rigid and articulated trucks classified by gross vehicle mass/gross combination mass.

2. From July 1976, ABS new motor vehicle registration statistics reflect the information as recorded on registration documents. Prior to this date, some adjustment of recorded data was undertaken by the ABS, in particular to maintain a dichotomy between light commercial-type vehicles and trucks, but this became increasingly difficult to maintain.

3. In these statistics, registrations are those processed by the motor vehicle registration authorities in the States and Territories during the period. In New South Wales, Tasmania and the Australian Capital Territory, the figures shown depart little from actual registrations during the period. In the other States and the Northern Territory, advice of some registrations is often not received by the central motor vehicle registration authority until some time after the actual date of registration; for this reason, a considerable number of registrations processed in a month relate to vehicles actually registered prior to that month.

Seasonal adjustment

4. Original and seasonally adjusted registrations of new motor vehicles are shown in Table 1. The two component series 'Motor cars and station wagons' and 'Other vehicles' are each adjusted separately, and the adjusted figures for total registrations are obtained by adding together the two component series. Details of the methods used in seasonally adjusting the component series are shown in *Seasonally Adjusted Indicators* (1308.0).

Classification by area

5. In all States, capital city registrations refer to vehicles for which the address of the registered owner is located within the capital city statistical division. These statistical divisions are re-defined from time to time usually as the result of information available from periodic population and housing censuses. All registrations in the Australian Capital Territory are included under 'Capital cities' while those in the Northern Territory are included under 'Other areas'.

6. Recreation vehicles such as trailbikes, sand dune buggies, etc., intended for use in public places are

required to be registered in Victoria and Queensland. Particulars of these registrations are regarded as outside the scope of new motor vehicle registration statistics and are therefore excluded from statistics contained in this publication.

7. Particulars of registrations of new tractors, plant and equipment, and caravans and trailers are shown in Table 21. Many tractors (particularly the agricultural types) and items of plant and equipment are not registered, and therefore are not included in this table. The extent to which they are included varies from State to State.

8. The figures in this publication include vehicles with diplomatic and consular plates and Government-owned new vehicles other than those belonging to the defence services.

Related publications

9. Users may also wish to refer to the following motor vehicle registration publications which are available on request:

Registrations of New Motor Vehicles, Australia (Preliminary) (9301.0) (Monthly)

Motor Vehicle Registrations (9304.0) (Annual)

Motor Vehicle Census, Australia; 30 September 1976 (9309.0) (Three yearly)

10. Other ABS publications which may be of interest include:

Production Bulletin No. 7, Motor Vehicles, Parts and Accessories, Australia (8363.0)

Imports of Assembled New Passenger Motor Cars, Australia (Preliminary) (5416.0)

11. Current publications produced by ABS are listed in *Catalogue of Publications* (1101.0) which is available free of charge from any ABS office.
