EXPLANATORY NOTES

Introduction

This publication shows financial and other statistics for the year ended 30 June 1986 for individual local authorities constituted under the 'Local Government Act 1936-1986' and the 'City of Brisbane Act 1924-1986'.

2. The Brisbane City Council is governed by the Local Government Act only where its own City of Brisbane Act is silent or where an ordinance has not been issued altering the application of the Local Government Act to the Brisbane City Council.

3. The figures shown in this publication, except for area and estimated population, have been compiled from annual returns and annual financial statements supplied by each local authority to the Local Government Grants Commission and to the ABS.

4. The powers of local authorities include the levying of taxation in the form of rates, based on the unimproved value of land, and the borrowing of money to enable them to perform their functions. Chief among these are the provision and maintenance of roads, footpaths, and community facilities, e.g. health services and recreational and cultural facilities. Most authorities also operate trading activities, the most common being water supply and sewerage services. A small number of authorities are

also involved in gas, electricity, and transport services. Although the services provided by local authorities are financed primarily from rates, charges, and loan raisings, financial assistance is also received from the Commonwealth and State Governments in the form of grants and subsidies.

Comparability

5. The statistics shown in this publication have been prepared using a uniform local government accounting approach, presenting details of receipts and disbursements of funds maintained by each authority. Wherever possible, steps have been taken to eliminate the effects of inter-fund transfers in an attempt to present details of net revenue and expenditure patterns of each authority.

6. On occasions, the non-financial details reported by some local authorities may not be strictly comparable from year to year or between authorities. In recent years such differences have appeared mostly in the statistics shown in Table 12, Length of Roads Normally Open to Traffic, because of re-alignments, changes in the classification of surface types, and revisions to lengths reported by authorities resulting from a detailed definitional check conducted by the Local Government Grants Commission of Queensland.

EXPLANATORY NOTES (continued)

7. The financial tables shown in this publication are compiled in accordance with the concepts employed in 'Standardised Local Government Finance Statistics' (Catalogue No. 1212.0) implemented by the ABS from 1979-80. Further details on these concepts are available on request.

Australian Standard Geographical Classification

8. Local authorities and the data contained in this publication are presented according to the statistical divisions as defined by the Australian Standard Geographical Classification (ASGC). Statistical divisions are designed to be relatively homogeneous regions characterised by identifiable social and economic units within the region.

Related Publications

9. Users may also wish to refer to the following publication which is available on request:

'Government Finance' (5503.3) - Latest issue: 1984-85

10. Current publications produced by the ABS are listed in the 'Catalogue of Publications' (Catalogue No. 1101.0) and those produced by the Queensland Office are listed in 'List of Publications' (Catalogue No. 1101.3). A 'Publications Advice' (Catalogue No. 1105.0) is issued on Tuesdays and Fridays which lists publications to be released in the next few days. These publications are available from any ABS Office.

Symbols and Other Usages

n.a. Not available.
p Preliminary - figure or series subject to revision.
- Nil or less than half the final digit shown.

11. Where figures have been rounded, discrepancies may occur between sums of the component items and totals.
