

Put yourself in this picture. There is no one type of man more vulnerable to HIV infection than any other. Whether you're looking for **Mr Right** or Mr Right Now, the number of gay and bisexual men in New Zealand with HIV is increasing again at an alarming rate. **Take HIV seriously – take the test.** It's better to know / He mana te maatauranga

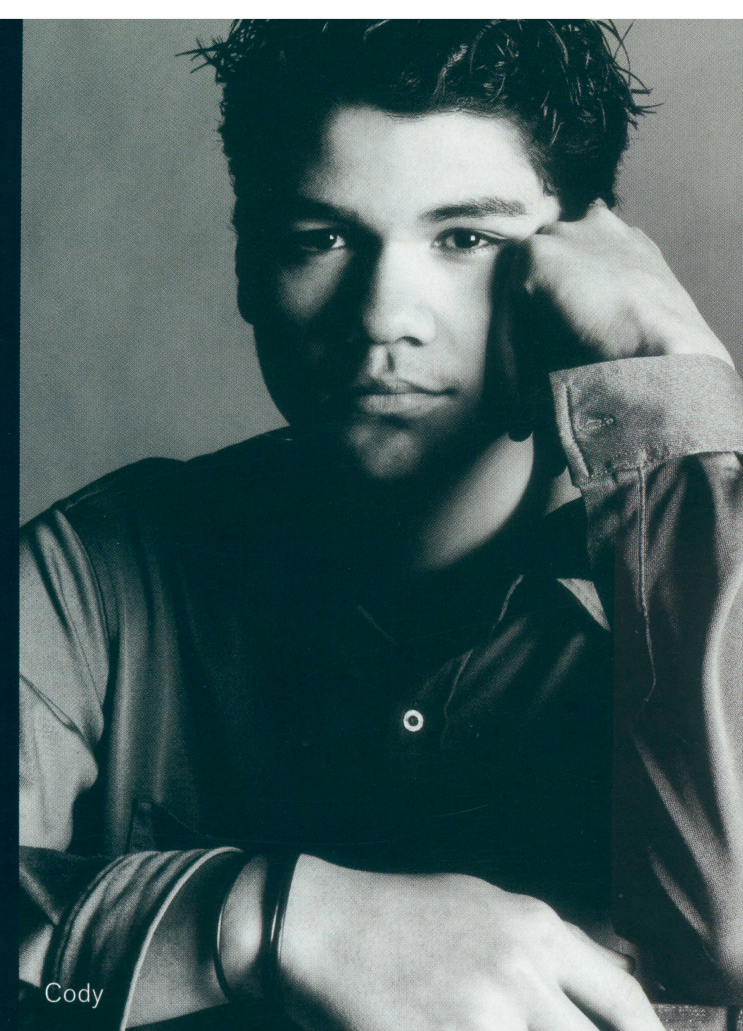

Where can I get tested? Find out here:

<http://www.nzaf.org.nz/locations.htm>

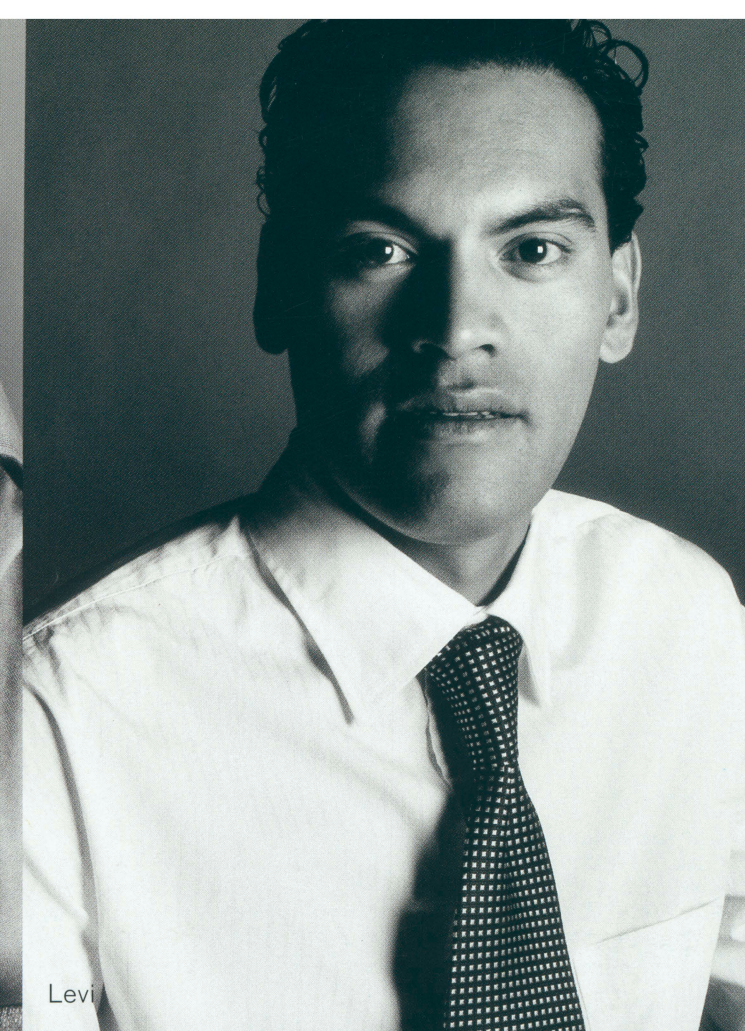

or contact your local NZAF or Sexual Health Centre
