MAIN FEATURES

New lending commitments made by building societies during November 1984 were \$451.9 million, an increase of \$6.1 million (1.4%) on October 1984.

Withdrawable share capital and unsecured borrowings totalled \$17,503.6 million at the end of November 1984, up \$323.5 million (1.9%) on October 1984.

Total assets at the end of November 1984 were \$19,364.9 million, an increase of \$313.2 million (1.6%) on October 1984.

EXPLANATORY NOTES

Introduction

This publication is compiled from statements furnished under the *Financial Corporations Act 1974*. It presents statistics on the financial operations, assets and selected liabilities of those corporations registered under the Act which are categorised as building societies.

2. Following amendments to regulations under the Act on 25 May 1984 there is a break in the building societies statistical series from June 1984. Information is provided in the June, July and August 1984 issues of this publication which contain details of the scope and coverage of these statistics.

Presentation

3. Tables 1 to 3 continue the monthly series which commenced in July 1976, and these are now available on a State basis as from May 1984. Table 4 continues the monthly series commenced in July 1978. Prior to June 1984 building societies with assets not exceeding \$5 million are excluded. Details of selected liabilities and assets (by quarter) for building societies with assets in Australia not exceeding \$5 million are contained in the publication *Financial Corporations Statistics, Australia* (5617.0), of which the final issue was for May 1984.

Interest rates

4. The publication of building society deposit and lending interest rates has been suspended pending a

revision of the present basis of determining indicative rates. Rapid growth in the number of deposit facilities on offer and increases in the size of loans made has called into question the basis on which the previously published figures were compiled. An analysis of interest rate data will be undertaken, and if an appropriate basis for determining indicative interest rates can be devised, a new series of interest rates will be published, backdated to June 1984.

Data items

5. Data items are reported in accordance with the directions contained in the Schedule to the *Financial Corporations (Statistics) Regulations*. It should be noted that, unless otherwise specified in the directions, building societies have been requested to value their assets and liabilities on the basis used in their latest audited accounts.

Statistical period

6. While the statistics are described as being for a statistical period (month/quarter) it should be noted that some building societies have accounting periods which do not correspond exactly to the statistical period and their figures are used without adjustment.

Comparability

7. Because of differences in size and classification criteria, the statistics in this publication are not directly comparable with statistics for building societies in the publications *Housing Finance for Owner Occupation, Australia* (5609.0), and *Permanent Building Societies, Assets, Liabilities, Income and Expenditure, Australia* (5632.0).

Revisions

8. This publication incorporates revisions made to statistics for previous periods.

Related publications

9. Users may wish to refer to the following publications which are available on request:
