DWELLING UNIT COMMENCEMENTS REPORTED BY APPROVING AUTHORITIES, QUEENSLAND, SEPTEMBER 1986

PHONE INQUIRIES For more information about these statistics please contact Mike Lawson on Brisbane (07) 222 6266.
For other inquiries, including copies of publications, please contact Information Services on Brisbane (07) 222 6351.

MAIL INQUIRIES Please write to Information Services, Australian Bureau of Statistics (ABS), G.P.O. Box 1100, Brisbane, Q. 4001.

Main Features

- During September 1986, 1,666 dwelling units (1,417 houses and 249 units in other residential buildings) were reported as commenced in Queensland. When compared with reported commencements for August 1986, these figures represent an increase of 25.6 per cent for houses, and an increase of 8.7 per cent for dwelling units in other residential buildings, giving an increase of 22.8 per cent for total dwelling units.
- The local authority area with the highest level of residential building activity was Brisbane City with 259 commencements, accounting for 15.5 per cent of the State total.
- For house commencements, the highest levels of activity, with percentages of the State total shown in brackets, were: Albert Shire, 202 (14.3 per cent); and Brisbane City, 191 (13.5 per cent).
- For dwelling units commenced in other residential buildings, the highest levels of activity were: Brisbane City, 60 (27.2 per cent), and Rockhampton City, 36 (14.5 per cent).
- For the quarter ended September 1986, house commencements totalled 3,903, 4.9 per cent less than those for the June quarter 1986 and 34.6 per cent less than in the September quarter 1985. Dwelling units commenced in other residential buildings totalled 720, a decrease of 44.1 per cent from those in the previous quarter and a decrease of 56.4 per cent from those in the corresponding quarter of 1985. Total dwelling unit commencements were 4,623, which was 17.7 per cent less than the June quarter 1986 figure and 43.0 per cent less than the September quarter 1985 figure.

Explanatory Notes

Introduction

This publication contains monthly details of the number of new dwelling units reported by approving authorities as having commenced in each local authority area with comparative data for earlier months.

Scope and Coverage

2. The statistics were compiled from monthly reports, provided by local and other government authorities, of commencements of new houses and new other residential buildings for which:

- (a) building permits were issued by local authorities in areas subject to building control by those authorities; or
- (b) contracts were let or day labour work was authorised by Commonwealth, State, semi-government, and local authorities.

3. Major residential building commencements which are not subject to the normal administrative approval processes (e.g. buildings on remote mine sites) are also included.

4. Dwelling units created by alterations and additions to existing buildings, and through the construction of new non-residential buildings are not included.

Comparability of Statistics

5. Because of the difference in data sources, collection methodologies, and timing of notification of commencements, care should be exercised in comparing quarterly data derived from monthly dwelling unit commencement statistics with the quarterly dwelling unit commencement statistics from the building activity survey.

Definitions

6. A dwelling unit is defined as a self-contained suite of rooms, including cooking and bathing facilities and intended for long-term residential use. Units whether self-contained or not within buildings offering institutional care, such as hospitals, or temporary accommodation such as motels, hostels, and holiday apartments, are not defined as dwelling units.

7. A residential building is defined as a building predominantly consisting of one or more dwelling units. Residential buildings can be either "houses" or "other residential" buildings as follows:

- (a) A "house" is defined as a detached building predominantly used for long-term residential purposes and consisting of only one dwelling unit. Thus detached "granny flats" and detached dwelling units (such as caretakers

Explanatory Notes (continued)

Definitions (continued)

residences) associated with "non-residential buildings" are defined as houses for the purpose of these statistics.

- (b) An "other residential building" is defined as a building which is predominantly used for long-term residential purposes and which contains (or has attached to it) more than one dwelling unit (e.g. town houses, duplexes, apartment buildings, etc.). The statistics shown for "other residential buildings" represent the number of dwelling units in other residential buildings, not the number of buildings.

8. **Commencements.** For the purposes of this statistical series, a residential building is regarded as being commenced on the date when:

- (a) the building work is first inspected by a local authority or other government authority building inspector or surveyor, whether the work is passed or not. In general, the first inspection is undertaken at the foundations or footings stage of construction; or
- (b) the building work is determined as commenced by a building inspector or surveyor.

9. **Ownership.** The ownership of a building is classified as either "public sector" or "private sector" according to the sector of the intended owner of the completed building as evident at the time of approval. Residential buildings being constructed by private sector builders under government housing schemes whereby the authority has contracted, or intends to contract, to purchase the buildings on or before completion, are classified as public sector.

10. **Statistical divisions.** For statistical purposes local authority areas, as defined under the "Local Government Act 1936-1985", and comprising cities shown (C), towns (T), and shires, are grouped into statistical divisions.

11. The Brisbane Statistical Division comprises the Cities of Brisbane, Ipswich, Logan, and Redcliffe, the Shire of Keeland, and parts of the Shires of Albert, Beaudesert, Caboolture, Moreton, and Pine Rivers. The City of Brisbane and parts of some adjoining shires are subdivided into suburbs; separate figures are not shown in this publication but are available on request.

12. **Statistical districts.** To provide comparable statistics over a period of time, statistical districts have been defined around selected urban centres, with a population of 25,000 or more, experiencing urban growth beyond the local authority boundaries. These districts are intended to contain the anticipated urban spread over the next 20 years, and are shown in Table 1.

Related Publications

13. Users may also wish to refer to the following publications which are available on request:

- "Building Approvals, Preliminary Figures for Dwelling Units Approved" (8730.3) - Monthly
 "Building Approvals" (8731.3) - Monthly
 "Building Approvals: Small Area Statistics" (8733.3) - Latest Issue: 1985-86
 "Building Activity" (8752.3) - Quarterly

14. Current publications produced by the ABS are listed in the "Catalogue of Publications" (Catalogue No. 1101.0) and those produced by the Queensland Office are listed in "List of Publications" (Catalogue No. 1101.3). A "Publications Advice" (Catalogue No. 1105.0) is issued on Tuesdays and Fridays which lists publications to be released in the next few days. These publications are available from any ABS Office.

Unpublished Statistics

15. The ABS can also make available certain dwelling unit commencement statistics which are not published, where it is not practicable to provide the required statistics by telephone. They may be available in other forms, such as microfiche, photocopy, computer printout, or clerically extracted tabulation. A charge may be made for providing unpublished statistics in these forms.

16. For further information on these unpublished statistics contact Mike Lawson by telephoning Brisbane (07) 222 6288, or write to Information Services at the address above.
