INSTALMENT CREDIT FOR RETAIL SALES : AUSTRALIA
OCTOBER 1971 PRELIMINARY ESTIMATES AND NOVEMBER 1971 PROVISIONAL ESTIMATES

Reference No. 5.19

Statistics of instalment credit for retail sales are collected on a monthly basis for non-retail finance businesses and on a quarterly basis for retail businesses. The tables in this statement contain details for the latest month or quarter for which information is available, together with details for earlier periods.

2. Information regarding the compilation of these statistics and definitions of "non-retail finance businesses", etc., can be found in the bulletin "Instalment Credit for Retail Sales", (Reference No. 5.18), which also contains some more detailed statistical series.

3. Preliminary and provisional estimates - non-retail finance businesses.
Monthly "preliminary" estimates of the total transactions of all non-retail finance businesses are calculated from a sample of such businesses. Subsequently the preliminary estimates are revised to accord with the results of the full quarterly collection. A "provisional" estimate of total balances outstanding for non-retail finance businesses is made for the most recent month and is based on a sub-sample of these businesses.

4. The bulletin includes seasonally adjusted figures of total balances outstanding for non-retail finance businesses - see Table 1. Details of the method used in seasonally adjusting this and other series are given in "Seasonally Adjusted Indicators 1971" (Reference No. 1.10) issued on 2 July 1971.

5. Any discrepancies between totals and sums of components in tables are due to rounding.
