PREFACE

This bulletin contains an analysis of registrations of new motor vehicles for the month of February, 1958. Vehicles owned by the Commonwealth Government are included, except those belonging to the Defence Services. Vehicles belonging to the Department of the Navy are included up to 31st December, 1955 but have been excluded from that date. For cars and commercial vehicles, the analysis relates to make, horsepower (R.A.C. rating) and type of new motor vehicle registered. Motor cycles are shown according to make of vehicle.

All figures for horsepower shown in this Bulletin are in terms of R.A.C. rating. Whole numbers only have been shown. For example, an R.A.C. rating of 17.9 h.p. is recorded in this Bulletin as 17 h.p.

Separate particulars are shown for (a) Cars, (b) Commercial Vehicles and (c) Motor Cycles. Cars have been classified according to whether they are sedans or "open" cars (i.e. tourers, sports cars, convertibles, etc.). Commercial vehicles are classified into (i) Utilities, (ii) Panel Vans, (iii) Lorries, (iv) Omnibuses, (v) Station Wagons and (vi) Other Types. Metropolitan registrations are shown separately for cars, commercial vehicles and motor cycles.

Supplementary tables show monthly averages for the years 1952 to 1957 and comparative figures for the last fifteen months. Trends in registrations according to type are shown for the years 1955 to 1958. Totals for the first two months of 1957 and 1958 and the proportion of the total registrations are shown for the principal makes of new cars and commercial vehicles registered. A dissection of lorries and omnibuses according to type of fuel used is also shown.

Monthly statistics are available as from July, 1951 and have been compiled in collaboration with Deputy Commonwealth Statisticians from data made available by the Road Transport Authority in each State. Particulars for motor cycles are not available for periods prior to January, 1953.

Vehicles such as the Land Rover, Willys Jeep and Austin Champ are included under the heading of the body type constructed on the chassis, but in most cases such vehicles are classified as "utility".

MOTOR CYCLES - Included under this heading are (a) Motor Cycles, (b) Motor Scooters and (c) Pedal Cycles with motor attached.

Vehicles which have been excluded from tabulations are as follows:-

Air Compressor	Fork/Air Lift	Mobile Crane
Bulldozer	Front End Loader	Rotary Hoe
Concrete Mixer	Grader	Street Sweeper
Crawler Tractor	Industrial Barrow	Tractor
Electric Welding Plant		

Separate registrations of trailers or any other vehicles without an engine are also excluded.

REGISTRATION:- For various reasons the total number of new vehicles shown herein may not agree in all cases with figures compiled by the registration authorities in each State as published in the Monthly Review of Business Statistics and other publications issued by this Bureau, but the difference will usually be small and of no significance. For all States the tabulations include all registrations of new vehicles which pass through the Central Registration Authority of respective States during the month. At times, in some States, new registrations effected in Branch offices are not "passed" into the statistics until some weeks or months after actual registration. In regard to Victoria and Western Australia, all metropolitan registrations of new motor vehicles during the month are included, but as the majority of country registrations arrive at the Central Office too late for inclusion in the tabulations for the month to which they refer, all extra-metropolitan registrations are incorporated in the tabulations for the month following.
