## MOTOR VEHICLE REGISTRATIONS VICTORIA, AUGUST 1984

3 OCTOBER 1984

Inquiries concerning these statistics may be made by telephoning Information Services on Melbourne (03) 63 0181; for advice on the interpretation of these statistics ask for Mr Keith Amanatides.

### MAIN FEATURES

In August 1984, 14,053 new motor vehicles were registered, 6 per cent more than August 1983 (13,236) and 13 per cent less than July 1984 (16,171). In seasonally adjusted terms the August 1984 figure of 12,051 represents a 16 per cent decrease on July 1984 (14,334) and an increase of 6 per cent on August 1983 (11,375).

For the two months July to August 1984-85 registrations rose by 21 per cent (30,224) compared with the same period for 1983-84 (24,940).

## EXPLANATORY NOTES

## Introduction

This publication contains detailed information regarding registrations of new motor vehicles and includes particulars of motor cars and station wagons, utilities and panel vans classified by make and fare, and rigid and articulated trucks by make and gross vehicle mass/gross combination mass. Details of registrations of new tractors, trailers, caravans and plant and equipment are also included, as are particulars of motor vehicles on register.

## Source

2. Motor vehicle registration statistics are obtained from data made available by the Victorian Motor Registration Branch and reflect the information as recorded in registration documents. In Victoria, advice of some registrations is often not received by the Motor Registration Branch until some time after the actual date of registration; for this reason, a considerable number of registrations processed in a given month actually relate to vehicles registered prior to that month.

## Seasonal adjustment

3. Original and seasonally adjusted registrations of new motor vehicles are shown in Table 2. The two component series 'Motor cars and station wagons' and 'Other vehicles' are each adjusted separately, and the adjusted figures for total registrations are obtained by adding together the two component series. Details of the methods used in seasonally adjusting the component series are shown in Seasonally Adjusted Indicators, Australia (1308.0).

## Classification of vehicles

4. Other truck type vehicles include non-freight carrying trucks, ambulances, hearses and motorised caravans.

5. Although registration of recreation vehicles intended for use in public places other than roads is compulsory, particulars of such vehicles are excluded from statistics contained in this publication.

6. Particulars are included in this publication of vehicles with diplomatic and consular plates and Government-owned new vehicles other than those belonging to the defence services.

7. As the registration documents used by the various State motor vehicle registry systems are not uniform, either in the data that are

available or in the definition of common data items, care must be taken when making comparisons between data from different systems. It is possible for identical vehicles to be described differently in different States or Territories, e.g. rear end door sedans may be registered either as cars or station wagons. Consequently, cars and station wagons have been amalgamated to avoid any confusion. In addition, in a relatively small number of cases the characteristics used to classify vehicles for the purposes of this publication may be inconsistently recorded within a particular registration system.

## Motor vehicles on register

8. Censuses of motor vehicles on register have been conducted in respect of 31 December 1955 and 1962, and 30 September 1971, 1976, 1979 and 1982. From December 1976, details of Commonwealth Government owned vehicles on register are only available at 31 December each year. For 30 June estimates, the previous 31 December figures for Commonwealth Government owned vehicles are used. Motor vehicles on register at a given date are vehicles for which either fees were paid in advance, on that date, or retrospectively. Figures for motor vehicles on register prior to June 1982 were derived from estimates of the previous Census of motor vehicles. From June 1982 onwards, motor vehicles on register figures are collected from the Motor Registration Branch.

## Unpublished tables

9. Various tabulations of a more detailed nature than those contained in this publication are available in the form of computer printouts for inspection in this office. It is recommended that inquiries regarding the availability of unpublished statistics be made by telephoning in the first instance. In general a charge is made for supply of such tabulations.

## Related publications

10. Users may also wish to refer to the following ABS publications which are available on request:

- 9301.0 Registrations of New Motor Vehicles  
(Preliminary), Australia (monthly)
- 9302.2 Motor Vehicle Census - Victoria  
(Irregular)
- 9303.0 Motor Vehicle Registrations, Australia  
(monthly)
- 9304.0 Motor Vehicle Registrations, Australia  
(annual)

11. Current publications produced by the ABS are listed in the Catalogue of Publications Australia (1101.0). The ABS also issues, on Tuesdays and Fridays, a Publication Advice (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS Office.
