MOTOR VEHICLE SURVEY: YEAR ENDED 30th JUNE, 1948

QUEENSLAND

Bulletins similar to this are in course of preparation for each State of Australia and for the Commonwealth as a whole.

These statistics are part of the data which have been sought by public and private organizations relative to the motor industry. Particulars concerning turnover of garages in 1947-48 were obtained at a special census of retail establishments and were published last year. Further data for 1948-49 are now in course of tabulation.

The information herein as to make, year of model, type of vehicle, horse-power and carrying capacity, &c., is that normally shown on motor registration forms. Supplementary particulars, such as those regarding purpose (private or business), were obtained either as special addenda to the registration form of 1947-48 or on special forms collected with registration papers from motor vehicle owners. The work was carried out in collaboration with the Government Statisticians and Road Transport authorities in each State.

The figures herein relate to motor vehicles whose registrations were renewed in the year ended 30th June, 1948, plus new motor vehicles registered less registrations cancelled in that year. The totals do not relate therefore to the number of vehicles on the register at specified dates but are representative of vehicles on the road in that year. Particulars of 157,018 motor vehicles are shown herein. The total number of motor vehicles on the register in Queensland at the 30th June, 1948, was 157,718.

LIST OF TABULATIONS

For each State the following tabulations were compiled for each of the motor vehicle groups, distinguishing "Private" and "Business or Part Business".

1. Make classified according to year of model and horse-power.
2. Make classified according to year of model and vehicle type.
3. Cars only—Make classified according to body type.
4. Commercial vehicles (other than cars)—Make classified according to vehicle type and carrying capacity.

Certain of these tabulations have not been published but are available in this Bureau on application to the Commonwealth Statistician, Canberra.

ROLAND WILSON,
Commonwealth Statistician.
