10.	All public authorities net taxation collections, 1958-59 to 1967-68	19

INTRODUCTORY NOTES

1. General. This bulletin shows statistics of net taxation collections by the Commonwealth, States and Territories for the years 1961-62 to 1967-68. Compared with earlier statements in this series the form of presentation has been changed and some revisions and additions have been made. The figures included in Tables 1, 2 and 4 relate to taxes (net of refunds and remissions) paid to Consolidated Revenue and Trust and Other Funds of Commonwealth and State Governments. Tables 5 and 6, which provide details of taxes collected by local and other government authorities, are included in this bulletin for the first time in order to indicate the scope of Australian taxation, and to facilitate interstate comparisons. In New South Wales, Queensland, South Australia and Western Australia, lotteries are conducted by the State or a State instrumentality, and the profits are used for State purposes. The profits (defined as sales less prizes less administration expenses) are shown separately in Table 7 and excluded from Table 4. Tables 3 and 8 indicate the relationships between the statistics of net taxation collections published in this statement and those published in the Australian National Accounts (ref. no. 7.1) and Commonwealth Finance (ref. no. 5.12); and Tables 9 and 10 summarize the information presented in Tables 1, 2, 4, 5, 6 and 7.

2. Summary. During 1967-68 Commonwealth Government taxation collections amounted to \$4,914.1 million, which was \$460.7 million (or 10.3 per cent) greater than collections in 1966-67. State government collections were \$683.2 million, up by \$61.2 million (13.4 per cent), Territory collections were \$2.8 million, up \$0.1 million (4 per cent), collections by Other government authorities rose by \$2.3 million (10.8 per cent), and Local government authorities taxation was estimated to have increased by \$20 million (7 per cent) to \$321 million. Profits of State lotteries increased by \$1.9 million (9.0 per cent) to \$22.9 million, compared with a corresponding rise of \$1.1 million (5.4 per cent) in 1966-67; the 1967-68 increase reflects the introduction of the South Australian lottery in May 1967. Taxation collections (including profits of State lotteries) by all public authorities in Australia were estimated to be \$5,967.8 million in 1967-68, an increase of \$566.6 million (10.5 per cent) over the 1966-67 amount, the corresponding increase in 1966-67 being \$364.8 million (7.2 per cent).

Individual items of Commonwealth government taxation which showed significant increases during 1967-68 were income tax on persons (up by \$254.6 million or 13.3 per cent), company income taxes, which rose by \$52.0 million (6.4 per cent) compared with a fall of \$11.1 million (1.4 per cent) in 1966-67, and estate duties (up \$13.2 million or 31.7 per cent). Among State government taxes that rose markedly were Stamp duties *n.e.c.*, which increased by \$33.0 million (26.3 per cent) in 1967-68, compared with rises of \$5.6 million (5.3 per cent) and \$15.4 million (14.0 per cent) in 1965-66 and 1966-67 respectively; the 1967-68 increase was due in part to increased collections of stamp duties on insurance certificates in N.S.W.; and introduction of duties on gross receipts in W.A. and Vic.; taxes on ownership and operation of motor vehicles rose by \$17.4 million or 10.4 per cent (8.8 per cent in 1966-67), probate and succession duties by \$12.4 million (11.7 per cent), racing taxes by \$5.5 million (14.4 per cent) and poker machines tax (in N.S.W.) by \$3.4 million (17.4 per cent).

Taxation collections (including profits of State lotteries) by all public authorities per head of population were \$500.4, compared with \$437.9 and \$461.3 in 1965-66 and 1966-67 respectively.

3. Any discrepancies between totals and sums of components in tables are due to rounding.
