PREFACE

This bulletin contains particulars of the value of retail sales of goods by commodity groups for each State and Australia for December quarter 1966. Commodity group figures for periods from 1957-58 onwards, and less detailed figures for earlier periods are included for purposes of comparison. Monthly totals, for Australia only, from July 1962 to February 1967 also are shown; the figures for January and February 1967 are provisional estimates (see paragraph 4 below). Figures from 1952-53 are on a basis comparable with the 1961-62 Retail Census.

2. Figures for the years 1947-48, 1948-49, 1952-53, 1956-57, and 1961-62 are derived from Censuses of Retail Establishments taken in respect of those years. Figures shown in this bulletin, by commodity groups and States, for other annual and quarterly periods, are estimates derived from a sample survey of retail establishments in Australia which is conducted by the Bureau each quarter. Quarterly sample returns are supplied by retail establishments which account for approximately 45 per cent of all retail sales in Australia. From these sample returns, totals for all retail establishments in Australia are estimated by methods appropriate to a stratified sample. Estimates from June quarter 1966 are subject to revision at a later stage when more precise information is available relating to trading by new businesses.

3. In addition to the estimates compiled from the full sample, preliminary quarterly figures, which are normally published in less detail about eight weeks after the end of each quarter, are compiled on the basis of a large response from the full quarterly sample. The preliminary figures for December quarter 1966 published in Statistical Bulletin No. 598 of 1 March 1967 are now replaced by the December quarter figures shown herein.

4. Provisional monthly estimates, which are published about four weeks after the end of each month, relate only to the total value of retail sales in Australia (excluding motor vehicles, parts, petrol, etc.) and are based on monthly returns collected from a sub-sample of the establishments included in the quarterly sample. These estimates are subsequently adjusted to accord with quarterly estimates when the latter become available.

5. The statistics herein relate to the value only of retail sales. To assess the movement in the volume of retail sales made, it would be necessary to allow for variations in prices. Comparisons as to trend are generally best made by relating complete years or corresponding periods of years. Quarterly totals are affected by seasonal influences. For this reason, where percentage changes are shown in this bulletin, quarterly figures of retail sales are compared with those of the corresponding quarter of the previous year. Month to month changes in retail sales figures are affected not only by the same seasonal factors as are quarterly figures, but also by differences in the number of days in each month and by variation in types of trading day. As an example of variation in types of trading day, one month might include five Thursdays, Fridays and Saturdays and, of course, four of each of the other days of the week, whereas another month might include five Sundays, Mondays and Tuesdays. Adjustments for these factors have not been made in sales estimates in this bulletin, and this should be borne in mind when comparisons over time are being made.

6. The figures relate to retail sales of goods (as distinct from services, repairs, accommodation, entertainments, meals, etc.) by establishments which normally sell goods by retail to the general public from shops, rooms, kiosks, and yards. Hotels, garages and service stations are also included in respect of goods sold, but establishments such as clubs and guest houses are entirely excluded. Goods sold from farms direct (e.g. milk and eggs) are also excluded. The tables relate primarily to consumer retail expenditure on goods, but include also some producer expenditure made by retail, mainly in respect of motor vehicles, petrol, etc. More detailed information as to the types of retail establishments covered and the commodity groupings is contained in the bulletins of the Census of Retail Establishments and Other Services 1961-62.

7. Particulars throughout this bulletin exclude Northern Territory and the Australian Capital Territory. Details for the Australian Capital Territory for the years 1961-62 to 1965-66 are included in the bulletin "Survey of Retail Establishments, Australian Capital Territory" of 4 January 1967, and for the Northern Territory for the years 1961-62 to 1965-66 in the bulletin, "Survey of Retail Establishments, Northern Territory" of 10 April 1967.

8. Revisions have been made to some of the figures previously published. These include revisions to figures based on revised information supplied by new businesses.
