EXPLANATORY NOTES

This bulletin contains figures of registrations of new motor vehicles and of motor vehicles on register.

REGISTRATIONS OF NEW MOTOR VEHICLES

2. Original and seasonally adjusted registrations of new motor vehicles are shown in Table 1, page 6. In the seasonal adjustment, account has been taken not only of normal seasonal factors but additionally of "trading-day" effects (arising from the varying numbers of Sundays, Mondays, Tuesdays, etc. in the month) and the influence of Easter which may, in successive years, affect figures for different months. Each of the component series has been seasonally adjusted independently. Consequently, while the unadjusted components in the original series will add to the totals, the adjusted components may not add to the adjusted totals. Details of the methods used in seasonally adjusting these and other series are given in "Seasonally Adjusted Indicators, 1968" issued on 21 May 1968.

3. Figures of registrations of new motor vehicles for the month of February 1968 are shown in tables 1 to 4, 6, and 9 to 18. Cumulative figures for current year to date are set out in tables 5, 7 and 8 and all tables show some comparative figures for earlier periods. Advance figures for the following month are also shown in tables 1, 2, 3 and 4.

4. The figures include new Commonwealth-owned vehicles other than those belonging to the defence services.

5. In these statistics, registrations are grouped into eleven major types of vehicles. These, with descriptions of some of the vehicles included in each major type, are listed below.

MOTOR CAR	Closed sports Convertible Coupe	Hard top Open sports Roadster Saloon	Sedan Sedan coupe Sports sedan Tourer
STATION WAGON	Estate car	Station sedan	Ranch wagon

6. In tables 9 to 16, separate details for motor cars, station wagons, ambulances and hearses, utilities, panel vans, trucks, other truck-types and omnibuses are shown classified according to make and R.A.C. rated horsepower. Fractions of R.A.C. horsepower are omitted; for example, an R.A.C. rating of 20.9 hp is recorded as 20 hp. For motor cars, separate particulars are also shown for (i) sedans and (ii) open cars, sports cars, convertibles, etc. For utilities, panel vans, trucks, other truck-types and omnibuses, diesel-engined vehicles are separately identified. In table 17, motor cycles are classified according to make.

7. In Queensland, most other truck-types are included with trucks.

8. Monthly statistics in much the same form as shown in this bulletin are available since July 1951, except for motor cycles which are only available from January 1963. These figures have been compiled in collaboration with Deputy Commonwealth Statisticians from data made available by the registration authorities in the States and Territories.

9. Capital city registrations in each State refer to vehicles whose owners' addresses are located within the capital city statistical division as defined for 1966 population census purposes. All registrations in the Australian Capital Territory are shown as "capital city".

10. In these statistics, "registrations" means registrations processed by the motor vehicle registration authorities in the States and Territories during the period. Occasionally, in some States, registrations of new motor vehicles are not recorded in the statistics until sometime after registration.

MOTOR VEHICLES ON REGISTER

11. Figures of motor vehicles on register for periods up to November 1967 are shown in tables 19-22.

12. Whilst different concepts of what constitutes "motor vehicles on register" at a particular point of time may be appropriate for different purposes, for the purpose of obtaining uniform statistics for all States and Territories, it is necessary to adopt a common concept of what constitutes motor vehicles on register at a particular date. In this series, the Bureau has adopted the concept of motor vehicles on register at a particular date being -

- (i) vehicles whose fees were paid up at that date, in respect of that date; and,
- (ii) vehicles whose fees were not paid up at that date but subsequently were paid retrospectively to that date (or to an earlier date);

and excluding all vehicles whose fees were not subsequently paid up in respect of that particular date, even though at that date their registrations may not have been formally terminated.

13. The figures are broadly comparable throughout the periods shown. Censuses of motor vehicles were taken at 31 December 1955 and 31 December 1962 and figures for the inter-censal period are estimates based on these census figures. Figures for dates after December 1962 are based only on the December 1962 census figures, and are compiled by the Bureau from data supplied by the various registration authorities.

14. In table 19, figures are shown for all motor vehicles (excepting tractors, trailers, caravans, plant and equipment, etc.). A dissection of this total into three component groups of types of vehicles, viz. motor cars and station wagons combined; utilities, panel vans, trucks, other truck-types and omnibuses combined; and motor cycles is shown in tables 20-22.

15. The figures of motor vehicles on register include all Commonwealth-owned vehicles other than those belonging to the defence services.

16. Figures for all periods after December 1962, are subject to revision.
