## Explanatory Notes

### Scope of the Survey

The scope of the survey may vary from time to time depending upon the needs of users of the statistics and on the ABS resources available to undertake the survey. The types of establishments currently included in the survey are:

- (i) Licensed hotel with facilities. A tourist accommodation establishment which is licensed to operate a public bar, provides bath or shower and toilet in most guest rooms, and has breakfast available for guests.
- (ii) Licensed or unlicensed motel, private hotel, or guest house with facilities. A tourist accommodation establishment which provides bath or shower and toilet in most guest rooms, and has breakfast available for guests, but is not licensed to operate a public bar. This category also includes motels that are licensed to serve liquor with meals.
- (iii) Caravan park. A tourist accommodation establishment which provides powered sites for caravans; and toilet, shower, and laundry facilities for guests.

### Definitions

Tourist accommodation establishment. For the purpose of the survey, a tourist accommodation establishment is defined as an establishment which predominantly provides short-term accommodation (i.e. for periods of less than two months) and is available to the general public. Note, however, that data collected and published include both long-term and short-term guests at these establishments.

Number of establishments refers to the number of tourist accommodation establishments within the scope of the survey which operated during the survey period. Establishments comprising more than one type of accommodation activity referred to above, e.g. a motel with attached caravan park, are treated as two separate establishments. Included are those establishments which operated for any part of the quarter or which closed temporarily for the quarter for seasonal reasons.

Guest rooms refers to the maximum number of rooms, units, suites, etc. available for accommodating paying guests at hotels and motels with facilities during the survey period.

Bed spaces refers to the maximum number of guests that could be accommodated in beds normally in place, excluding cots, at hotels and motels with facilities during the survey period. Three-quarter beds are classified as single beds; double beds are counted as two bed spaces.

On-site vans refers to the number of caravans owned or leased and located on powered sites at caravan parks which were available for accommodating paying guests during the survey period.

Powered sites refers to the maximum number of sites with provision for connection to electric power supply which are available at caravan parks for accommodating paying guests during the survey period. Included are powered sites occupied by on-site vans.

Unpowered sites refers to the maximum number of sites with no provision for connection to electric power supply which are available at caravan parks for accommodating paying guests during the survey period.

Cabins, units, etc. refers to the maximum number of cabins, flats, units, and villas available at caravan parks for accommodating paying guests during the survey period.

Total caravan park capacity refers to the maximum number of on-site vans, other powered sites, unpowered sites, and cabins, flats, etc. available at caravan parks for accommodating paying guests during the survey period.

Room nights (for licensed hotels, motels, etc.) refers to the total number of times a room, unit, or suite is occupied by a paying guest during the month or quarter.

Guest nights (for licensed hotels, motels, etc.) refers to the total number of times a paying guest (including children occupying beds) stays at the establishment during the month or quarter.

Site nights (for caravan parks) refers to the number of times an on-site van or cabin is occupied by a paying guest or a private caravan or tent is occupied.

Room occupancy rate refers to the proportion of guest rooms occupied in hotels and motels with facilities to the number of guest rooms available during the survey period, expressed as a percentage.

## Explanatory Notes (continued)

### Definitions (continued)

Bed occupancy rate refers to the proportion of bed spaces occupied in hotels and motels with facilities to the number of bed spaces available during the survey period, expressed as a percentage.

Site occupancy rate refers to the proportion of sites occupied by guests in caravan parks to the total caravan park capacity available during the survey period, expressed as a percentage. Unoccupied on-site vans are treated as vacant sites.

Takings from accommodation refers to revenue received from the provision of short-term and long-term accommodation at the tourist accommodation establishment. Where meals and accommodation are a combined charge an estimate of takings from meals is excluded. Takings from accommodation for each month represent the takings received during that month. In the case of some establishments, payments may be made in advance of, or may be received after, the provision of accommodation to guests and therefore the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month. Rental and storage fees paid to caravan parks for the keeping of private vans in parks are included in the takings of the month they are received.

City of Brisbane. The "City Core" comprises the suburbs of Bowen Hills, City, Dutton Park, Fortitude Valley, Herston, Highgate Hill, Kangaroo Point, Kelvin Grove, Milton, New Farm, Newstead, Paddington, Red Hill, South Brisbane, Spring Hill, West End, and Woollongabba.

Sunshine Coast Statistical District. This district comprises the more urban coastal portions of Landsborough, Maroochy, and Noosa Shires. The figures for establishments in this district are also included in the totals for their respective shires, the Moreton Statistical Division, and Queensland.

Great Barrier Reef island establishments. This category is comprised of establishments on the

coastal islands from Heron in the south to Lizard in the north. The figures for these establishments are included in their respective statistical divisions and in the Queensland total.
