PRODUCTION SUMMARY NO. 52 : ELECTRICAL POWER TRANSFORMERS, CHOKES AND BALLASTS (a) - JULY, 1967

This summary contains final figures derived from the Annual Factory Census for 1964-65 and 1965-66. The figures for months 1965-66 are also final (see footnote (b)). The figures for 1966-67 and July 1967 are subject to revision.

(a) Includes units made for incorporation in articles produced in own works. (b) Adjustment necessary to bring the total of the 12 monthly figures derived from monthly production returns into exact agreement with annual totals derived from annual factory returns. In many cases this adjustment is due to the acceptance of annual factory returns for a year other than the normal financial year ending June 30.
