14.	Number of Accidents, Persons Killed, Persons Injured : Times of Day at which Accidents Occurred - Australia, Year ended December 1965 and Quarters September 1965 to September 1966	..	..	20

EXPLANATORY NOTES

This bulletin contains details of road traffic accidents involving casualties for the year ended December 1965 and for each quarter from September 1965 to September 1966 inclusive.

2. Except as mentioned in paragraph 3, details of road traffic accidents involving casualties relate to accidents which were reported to the police and which satisfy the following conditions -

- (a) That the accident occurred on any road, street, thoroughfare, etc., open to the public, including railway level crossing;
- (b) That it involved any road vehicle, i.e. motor car, tram, handbarrow, etc., (or other road user, such as an animal), which at the time of the accident was in motion;
- (c) That the accident resulted in -
 - (i) the death of any person within a period of 30 days of the accident; or
 - (ii) bodily injury to any person to an extent requiring surgical or medical treatment.

3. For South Australia, particulars of the number of road traffic accidents include those in which the injured persons did not require surgical or medical treatment and particulars of the number of persons injured include those who did not require surgical or medical treatment.

4. The statistics in this bulletin are compiled from accident reports which are prepared by police officers in the various States and Territories.

5. Australian totals of the number of accidents which incurred vehicle damage only are not available as these details are not compiled in all States.

6. Details of road traffic accidents, classified according to "Type of Road User Responsible" and "Cause of Accident", are not included in this bulletin. Investigations have shown that, because of the subjective nature of classification of accidents according to "responsibility" and "cause", it has not been possible to collect and classify statistics on the same basis for all States.

7. Statistical statements of road traffic accidents are issued quarterly for the States of Victoria, Queensland and Western Australia, and monthly for the State of Tasmania, by the respective Deputy Commonwealth Statisticians. The statement for Victoria does not include particulars of road traffic accidents classified according to "Type of Road User Responsible" and "Cause of Accident". Separate publications relating to road traffic accident statistics are not published by the Deputy Commonwealth Statisticians in New South Wales or South Australia. However, in New South Wales, the Commissioner of Motor Transport publishes annually a statement entitled "Statistical Statement of Road Accidents in New South Wales", and in South Australia the Commissioner of Police includes particulars of road traffic accidents in the annual "Report of the Commissioner of Police". The Commissioner of Police in the Northern Territory also includes summary particulars of road traffic accidents in the annual "Report of the Commissioner of Police".
