

CATALOGUE NO. 8635.1

21 JANUARY 1988

TOURIST ACCOMMODATION, NEW SOUTH WALES

SEPTEMBER QUARTER 1987

INQUIRIES: *If you would like to obtain further information about these statistics, please ring Matt Strange on (02) 268 4655; contact ABS Information Services on (02) 268 4611, at level 3 St. Andrew's House, Sydney Square, Sydney; or write to Information Services, Australian Bureau of Statistics, Box 796 GPO, Sydney 2001.*

MAIN FEATURES

1. In New South Wales the room occupancy rate for licensed hotels with facilities for the September quarter 1987 (65%) has increased compared with the September quarter 1986 (61%).
2. The room occupancy rate in New South Wales for motels etc. with facilities in September quarter 1987 (59%) has not changed from the September quarter 1986 (59%).
3. The New South Wales site occupancy rate for caravan parks in the September quarter 1987 (28%) has increased over the September quarter 1986 (26%). Refer to explanatory note 3(c).

EXPLANATORY NOTES

Introduction

This publication contains results for New South Wales of the quarterly surveys of tourist accommodation establishments. The period covered by the latest survey is the three months ended September 1987.

Scope and coverage

2. Up to the June quarter 1986 survey, a tourist accommodation establishment was defined, for the purpose of the survey, as an establishment which predominantly provides short-term accommodation (ie. for periods of less than 2 months) available to the general public. Commencing with the September quarter 1986 survey, the definition was extended to include all caravan parks (whether predominantly providing short-term or long-term accommodation). This change was made because predominantly long-term caravan parks also provide a significant number of sites for short-term accommodation.

3. Tourist accommodation establishments currently included in the survey are:

(a) *Licensed hotel with facilities.* An accommodation establishment which is licensed to operate a public bar, provides a bath or shower and toilet in most guest rooms, and has breakfast available for guests.

(b) *Motel, private hotel or guest house with facilities.* An accommodation establishment which provides a bath or shower and toilet in most guest rooms and has breakfast available for guests but is not licensed to operate a public bar. This category includes motels that are licensed to serve liquor with meals.

(c) *Caravan park.* An accommodation establishment which provides powered sites for caravans and toilet, shower and laundry facilities for guests. A *short-term caravan park* is one which is predominantly occupied by short-term guests (ie. guests staying for less than 2 months). A *long-term caravan park* is one predominantly occupied by long-term guests (ie. guests staying for 2 months or more).

The classification of caravan parks as either *short-term* or *long-term* has been reviewed on the basis of the information available for all caravan parks for 1986-87. As a result, there has been a change in classification for some parks for September quarter 1987. Significant changes in the number of each type of caravan park between June quarter and September quarter 1987 are attributable to these classification changes.

Note that data collected and published for each type of establishment include both long-term and short-term guests at these establishments.

4. *Number of establishments* refers to the number of accommodation establishments within the scope of the survey which operated during the survey period. Included are those establishments which operated for any part of the quarter or which closed temporarily for the quarter for seasonal reasons. An establishment comprising more than one type of accommodation activity referred to in paragraph 3 above (e.g. a motel with attached caravan park) is treated as more than one separate establishment.

5. *Guest rooms* refers to the maximum number of rooms, units, suites, etc. available for accommodating paying guests at hotels and motels with facilities during the survey period.

6. *Bed spaces* refers to the maximum number of bed spaces (excluding cots) available to accommodate paying guests at hotels and motels with facilities during the survey period. Three-quarter beds are classified as single beds; double beds are counted as two bed spaces.
7. *Guest arrivals* refers to the total number of paying guests counted on the first night they stayed at the accommodation establishment.
8. *Guest nights* refers to the total number of nights each paying guest stayed during the survey period.
9. *Room occupancy rate* refers to the proportion of guest rooms occupied to the number of guest rooms available during the survey period expressed as a percentage.
10. *Bed occupancy rate* refers to the proportion of bed spaces occupied to the number of bed spaces available during the survey period expressed as a percentage.
11. *Average length of stay* refers to the proportion of guest nights to guest arrivals. This gives only an approximation of the actual average length of stay because some of the guest nights counted in a particular month or quarter may relate to guest arrivals in previous months or quarters.
12. *Powered sites* refers to the maximum number of sites, with provision for connection to electric power supply, which are available at caravan parks for accommodating paying guests during the survey period. Included are powered sites occupied by on-site vans.
13. *Unpowered sites* refers to the maximum number of sites, with no provision for connection to electric power supply, which are available at caravan parks for accommodating paying guests during the survey period.
14. *Cabins, flats, etc.* refers to the maximum number of cabins, flats, units and villas available at caravan parks for accommodating paying guests during the survey period.
15. *Site nights* refers to the total number of nights each powered or unpowered site, cabin, flat etc. is occupied during the survey period.
16. *Sites occupied by long-term guests* refers to the total number of sites occupied by long-term guests (ie. guests who have stayed continuously for 2 months or more) at the end of the survey period.
17. *Site occupancy rate* refers to the proportion of site nights to the total caravan park capacity available during the survey period expressed as a percentage. Unoccupied vans are treated as vacant sites.
18. *Takings from accommodation* refers to revenue received from the provision of short-term and long-term accommodation at the accommodation establishment. Takings from meals are excluded. Takings from accommodation for each month represent the takings received during that month. In the case of some establishments where payments are received in advance of, or after, the provision of accommodation to guests, the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month. Rental and storage fees paid to caravan parks for the keeping of private vans in parks are included in the takings of the month they are received.
19. *Star grading* refers to the grading of hotels and motels by the National Roads and Motorists Association (NRMA). The gradings are intended to indicate in a general sense the type of accommodation offered, taking into account the amenities and facilities provided. Details of the grading scheme are contained in the NRMA Accommodation Guide. For the purpose of classifying establishments to a star grading in this publication, 'half' gradings are ignored (eg. a two and a half star grading has been shown as two).
20. *Employment.* Details of the numbers of persons working at accommodation establishments (including those working on other than accommodation activities) have not been included in this publication. However, data are available upon request from the ABS.

School vacations

21. The occupancy of accommodation establishments is affected by school vacations. Public school vacations in New South Wales for the quarterly and monthly periods covered in this publication are:

22 August 1986 to 8 September 1986
 3 July 1987 to 20 July 1987
 25 September 1987 to 12 October 1987

Statistical Areas of New South Wales

22. This bulletin contains data presented according to the Australian Standard Geographical Classification (ASGC), Edition 4. Under this classification, statistical areas are defined as follows:

STATISTICAL LOCAL AREAS (SLA's). These geographic areas are in most cases either identical with, or have been aggregated to, the previously published whole or part legal Local Government Areas (LGA's) as defined under the (State) Local Government Act 1919 and comprising cities (C), municipalities (M) and shires (S). In other cases, they are identical to each previously published unincorporated area. In aggregate, SLA's cover the whole of the State without gaps or overlaps. In some cases legal LGA's overlap Statistical Subdivision boundaries and therefore comprise 2 SLA's (Part A and Part B) or 3 SLA's in the case of Cabonne (S) (Part A, Part B and Part C).

STATISTICAL SUBDIVISIONS (SSD's). These consist of one or more SLA's and form the intermediate size spatial unit for the presentation of regional data.

STATISTICAL DIVISIONS (SD's). These consist of one or more Statistical Subdivisions (SSD's). Where SSD's are not shown for statistical purposes, statistical local areas are shown ordered alphabetically within statistical divisions. The divisions are designed to be relatively homogeneous regions characterised by identifiable social and economic units within the region, under the unifying influence of one or more major towns or cities.

STATISTICAL DISTRICTS. To provide comparable statistics over a period of time, statistical districts have been

defined around selected urban centres, with a population of 25,000 or more, experiencing urban growth beyond the legal local government area boundaries. Those districts are intended to contain the anticipated urban spread over the next 20 years.

Further information concerning statistical areas is contained in the publication *Regional Statistics, New South Wales, 1987 issue* (1304.1) and in the publication *Australian Standard Geographical Classification* (1216.0).

Related publications

23. Detailed statistics for hotels and accommodation establishments are contained in:

Census of Retail Establishments and Selected Service Establishments, Hotels and Accommodation Establishments, New South Wales, 1979-80 (8624.1)

Selected Accommodation Establishments, Australia 1984-85 (8636.0)

24. A list of the complete range of publications available from the ABS can be obtained from any ABS Office. Access to a wide range of ABS statistics is also available through the VIATEL videotex system and on AUSSTATS, ABS' on-line service through CSIRONET. Further information about these services can be obtained from the Sydney ABS Information Service on (02) 268 4611, or from any ABS Office.
