COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

CANBERRA, AUSTRALIA

To be treated as strictly CONFIDENTIAL and NOT to be published, broadcast or cabled before NOON on THURSDAY 27 JULY 1967

AUSTRALIAN LIFE INSURANCE STATISTICS

MONTHLY BULLETIN NO 243 : APRIL 1967

The information presented herein has been compiled from returns furnished by the companies registered under the Life Insurance Act 1945-1965 and made available by the Commonwealth Insurance Commissioner. The business of the Government Insurance Office of New South Wales and the Queensland State Government Insurance Office is not included; these offices operated only in New South Wales and Queensland respectively.

2. Details of new policies issued and policies discontinued or reduced are shown in the period during which they were recorded in the life insurance companies' registers. For monthly statistics in particular, such periods may be subsequent to those during which the policies were actually written or matured, surrendered, etc.

3. The factor described in paragraph 2 is less important for annual statistics, since companies endeavour to record, during each financial year, all risks assumed or discontinued during that financial year. However, this practice has a further effect on monthly statistics, since it involves a tendency for recording to be more concentrated in the last month of a company's financial year than in other periods. Where this concentration relates to "blanket" policies (i.e. policies insuring more than one life) the effect will be more pronounced in statistics relating to "Sum Insured" and "Annual Premiums" than those relating to "Number of Policies". There may also be a tendency associated with arrangements regarding commission and bonus incentives for some concentration of actual new business written to occur in the concluding months of companies' financial years. The particular months for which statistical totals are affected by these practices depend on the closing dates of the financial years of the various companies. The months principally affected are September and December, with less important effects in March, June and August.

4. Particulars of selected assets and liabilities held in Australia by Life Insurance Companies at the end of each quarter from September 1965 to March 1967 are included in tables 11 and 12 of bulletin No 242, March 1967.

5. Any discrepancies between totals and sums of components in tables are due to rounding.

LIFE INSURANCE BUSINESS WITHIN AUSTRALIA (a) : APRIL 1967

(Excludes business of the Government Insurance Office of New South Wales
and the Queensland State Government Insurance Office)
