PREFACE

This bulletin contains an analysis of registrations of new motor vehicles for the month of June, 1959. Vehicles owned by the Commonwealth Government are included, except those belonging to the Defence Services. Vehicles belonging to the Department of the Navy are included up to 31st December, 1955 but have been excluded from that date. For all new motor vehicles (excluding motor cycles), the analysis relates to make, horsepower (R.A.C. rating) and type of vehicle registered. Motor cycles are shown according to make of vehicle.

All figures for horsepower shown in this Bulletin are in terms of R.A.C. rating. Whole numbers only have been shown. For example, an R.A.C. rating of 17.9 h.p. is recorded in this Bulletin as 17 h.p.

Separate particulars are shown throughout for motor cars, ambulances and hearses, station wagons, utilities, panel vans, trucks, other truck-type vehicles, omnibuses and motor cycles. Motor cars are classified according to whether they are sedans or "open" cars (i.e. tourers, sports cars, convertibles, etc.). All other vehicles are classified as listed hereunder (See "Classification"). Metropolitan registrations are shown separately. Diesel-powered vehicles are indicated and dissected from petrol-driven vehicles in total.

Supplementary tables show monthly averages for the years 1953 to 1958 and comparative figures for the last fifteen months. Trends in registrations according to type are shown for the six months ended June, 1956 to 1959. Totals for the six months ended June, 1956 and 1959 and the proportion of the total registrations are shown for the principal makes of new motor cars, station wagons and other motor vehicles registered. New registrations of tractors and trailers are also shown for metropolitan and extra-metropolitan areas in each State. Motor vehicles on the register are dissected according to broad type viz. motor cars, commercial vehicles and motor cycles.

Monthly statistics are available as from July, 1951 and have been compiled in collaboration with Deputy Commonwealth Statisticians from data made available by the Road Transport Authority in each State. Particulars for motor cycles are not available for periods prior to January, 1953.

Vehicles such as the Land Rover, Willys Jeep and B.M.C. Gypsy are included under the heading of the body type constructed on the chassis, but in most cases such vehicles are classified as utilities.

REGISTRATION:- For various reasons the total number of new motor vehicles shown herein may not agree in all cases with figures compiled by the registration authorities in each State as published in the Monthly Review of Business Statistics and other publications issued by this Bureau, but the differences will usually be small and of no significance. Registered during the month means passed through the Central Registration Authority of respective States during the month. Occasionally, in some States, new registrations effected in Branch offices are not "passed" into the statistics until some time after actual registration. In Victoria, prior to June, 1959, and in Western Australia, all extra-metropolitan registrations are incorporated in the tabulations for the month following.

An adjustment has been made to the method of recording extra-metropolitan registrations in Victoria so as to bring it more into line with that for other States. This has had the effect of including in June, 1959, the following registrations which otherwise would have been included in July, 1959:- Motor Cars, 620; Station Wagons, 144; Ambulances, 2; Utilities, 140; Panel Vans, 62; Lorries, 55; Omnibuses, 2 and Motor Cycles, 20. The figures for June are therefore overstated to this extent in comparison with those for preceding months.
