NOTE.—The Metropolitan Division relates to the capital city and adjoining urban municipal areas within boundaries used for census purposes. At the 1947 Census it included areas (with a population of approximately 30,000 persons) which at the 1933 Census were mainly in the Rural Division. The Urban Provincial Division comprises the balance of the State and is affected by the inter-censal changes in the areas of the Metropolitan and Urban-Provincial Divisions. In view of the foregoing the figures for the Urban-Provincial and Rural Divisions represent only a broad general classification based on administrative principles rather than geographical. Minus Sign (—) denotes decrease.

(a) Includes persons who were (1) unable to secure employment; (2) temporarily laid off from their jobs; and (3) not actively seeking work at the time of the Census on account of sickness or accident, industrial dispute, resting between jobs, or for any other reason.

NOTES.

1. Wage-earners who were employed part-time in 1933 were asked to indicate that fact on the Census Schedule in answer to the question regarding occupational status, and all those who so described themselves are included in the work force for that year. In 1947, however, persons working regularly, but for considerably less than normal working hours, were instructed on the Census Schedule to exclude themselves from the work force unless their earnings from such work formed their principal means of livelihood.

2. Minus sign (—) denotes decrease.
