P R E F A C E

This Bulletin contains an analysis of registrations of new motor vehicles for the month of April, 1960. Vehicles owned by the Commonwealth Government are included, except those belonging to the Defence Services. Vehicles belonging to the Department of the Navy are included up to 31st December, 1955 but have been excluded from that date. For all new motor vehicles (excluding motor cycles), the analysis relates to make, horsepower and type of vehicle registered. Motor cycles are shown according to make of vehicle.

All figures for horsepower shown in this Bulletin are in terms of R.A.C. rating. Whole numbers only have been shown. For example, an R.A.C. rating of 17.9 h.p. is recorded in this Bulletin as 17 h.p.

Motor cars are classified according to whether they are (1) sedans or (2) tourers, sports cars, convertibles, etc. All other vehicles are classified as listed on page 3. Metropolitan registrations are shown separately. Diesel-powered vehicles are indicated and dissected from petrol-driven vehicles.

Monthly statistics are available as from July, 1951 and have been compiled in collaboration with Deputy Commonwealth Statisticians from data made available by the Road Transport Authority in each State. Particulars for motor cycles are not available for periods prior to January, 1953.

R E G I S T R A T I O N

For various reasons the total number of new motor vehicles shown herein may not agree in all cases with figures compiled by the registration authorities in each State as published in the Monthly Review of Business Statistics and other publications issued by this Bureau, but the differences will usually be small and of little significance. "Registered during the month" means passed through the Central Registration Authority of respective States during the month. Occasionally, in some States, new registrations effected in Branch offices are not "passed" into the statistics until some time after actual registration. In Victoria, prior to June, 1959, and in Western Australia, all extra-metropolitan registrations are incorporated in the tabulations for the month following.

An adjustment has been made to the method of recording extra-metropolitan registrations in Victoria so as to bring it more into line with that for other States. This has had the effect of including in June, 1959, the following registrations which otherwise would have been included in July, 1959:- Motor Cars, 620; Station Wagons, 144; Ambulances, 2; Utilities, 140; Panel Vans, 62; Trucks, 55; Omnibuses, 2 and Motor Cycles, 20.
