

AUSTRALIAN PRODUCTION STATISTICS

MONTHLY PRODUCTION SUMMARIES

Please note:

As from the April 1963 issues of this series of forty-six Production Summaries, the particulars shown will be confined to details of the current month and the same month of the previous year, together with any revisions made to figures previously published.

The June issue each year will also show preliminary totals for the year ended June, together with a repeat of the preliminary figures for each of the twelve months.

When figures are available from each annual factory census, final totals together with final figures for each of the months of the year will also be shown.

It is proposed that these should appear in the issues for May.

By these changes, the latest monthly figures should be issued more promptly than previously and in addition the final monthly figures will be made available in these summaries.
