16.	Number of accidents, persons killed, persons injured : Days of the week on which accidents occurred - Australia, year ended December 1974 and quarters September 1974 to September 1975	19
17.	Number of accidents, persons killed, persons injured : Times of day at which accidents occurred - Australia, year ended December 1974 and quarters September 1974 to September 1975	20

EXPLANATORY NOTES

Introduction

This bulletin contains details of road traffic accidents involving casualties which occurred in each State and Territory of Australia during the three months ended 30 September 1975 and is supplementary to the statement issued on 11 February 1976 (Reference No. 14.14). A statement showing preliminary figures of road fatalities for the six months ended June 1976 was issued in July 1976 (Reference No. 14.13).

Seasonally adjusted

2. Original and seasonally adjusted statistics of road traffic accidents involving casualties, persons killed and persons injured are shown in Table 1. Because of the irregular nature of the data caution should be exercised in interpreting quarter to quarter movements. Details of the methods used in seasonally adjusting this series are available on request from the Canberra Office of the Australian Bureau of Statistics.

Scope

3. Details of road traffic accidents involving casualties relate to accidents which were reported to the police and which satisfy the following conditions -

- (a) That the accident occurred on any road, street, thoroughfare, etc., open to the public, including railway level crossing;
- (b) That it involved any road vehicle, i.e. motor car, tram, handbarrow, etc., (or other road user, such as an animal), which at the time of the accident was in motion;
- (c) That the accident resulted in -
 - (i) the death of any person within a period of 30 days of the accident; or
 - (ii) bodily injury to any person to an extent requiring surgical or medical treatment.

4. The statistics in this bulletin are compiled from accident reports which are prepared by police officers in the various States and Territories.

5. Australian totals of the number of accidents which involved vehicle damage only are not available as these details are not compiled in all States.

6. Details of road traffic accidents, classified according to "Type of road user responsible" and "Cause of accident", are not included in this bulletin. Investigations have shown that, because of the subjective nature of classification of accidents according to

"responsibility" and "cause", it has not been possible to collect and classify statistics on the same basis for all States.

7. Since January 1970 monthly statements of road accident fatalities in each State and Territory have been issued by this Bureau. Since the December quarter 1969, the Bureau has also issued quarterly statements showing preliminary details of road traffic accidents involving casualties which occurred in each State and Territory of Australia. Quarterly statements of road traffic accidents are also issued for the States of Victoria, Queensland, South Australia, Western Australia and Tasmania by the respective Deputy Commonwealth Statisticians, for the Northern Territory by this Office, and for the Australian Capital Territory by the Department of the Capital Territory, Canberra. Particulars of road traffic accidents classified according to "Type of road user responsible" and "Cause of accident" are shown only in statements for South Australia and Tasmania. Separate publications relating to road traffic accidents are not published by the Deputy Commonwealth Statistician in New South Wales, but selected quarterly figures for this State are published in the New South Wales Statistical Bulletin. In addition, in New South Wales the Commissioner of Motor Transport publishes for the twelve months ended June and December of each year an annual statement entitled "Statistical Statement of Road Accidents in New South Wales", and in South Australia the Road Traffic Board publishes an annual bulletin "Road Traffic Accidents".

8. Accident report forms containing details of approximately 900 accidents which occurred in New South Wales mainly during the June quarter 1975 and in which some 980 motor cyclists (including pillion riders) were injured are not included in the June quarter 1975 figures as they were supplied to the Bureau as part of data referring to the September quarter 1975. Because of the difficulty of classification, these reports cannot be identified as referring to the June quarter 1975. Particulars of these accidents are therefore included in published figures for the September quarter 1975.

9. An investigation currently being undertaken by the A.B.S. into road traffic accident data supplied to it for Victoria, suggests that figures for the number of accidents, and for persons injured may have been understated for 1974 and 1975. Investigations are continuing to determine the level of understatement and whether prior periods are also affected.

Symbols and other usages

- r - revised
- . . - nil or not applicable

NOTE. Inquiries concerning these statistics may be made in Canberra by telephoning Mr Valdis Juskevics on 52 6068 or, in each State capital, by telephoning the office of the Australian Bureau of Statistics.
