

PRODUCTION SUMMARY NO. 33 : MOTOR VEHICLES

APRIL 1967

This Production Summary contains statistics of Finished or Partly Finished Motor Vehicles. These statistics have been compiled from returns collected from Motor Vehicle Manufacturers and include the production of vehicles from both Australian and Imported components. They do not include assembled vehicles imported as such. The statistics of Finished Motor Vehicles exclude vehicles finished by specialist body building works outside the motor vehicle manufacturers' organization. The statistics of Partly Finished Motor Vehicles represent the production of mono-construction units and chassis to which some additional body work (except painting) is to be done by specialist body builders.
