WHOLESALE PRICE (BASIC MATERIALS AND FOODSTUFFS) INDEX

JANUARY, 1965

This bulletin contains particulars of the Wholesale Price (Basic Materials and Foodstuffs) Index from 1936-37 to the present time.

2. A list of the commodities and other information concerning the index is set out in Labour Report No. 49, 1961.
3. Commodities in the index are priced in their primary or basic form wherever possible and as nearly as may be at the point where they first make effective impact on the Australian price structure. The prices of imported goods, for instance, are on an ex-bond or into factory basis.
4. The prices used have, in the main, been obtained directly from manufacturers and merchants. With a few important exceptions, they are from Melbourne sources.
5. The weights are based on estimates of the average annual consumption of the commodities in Australia during the period 1928-29 to 1934-35. The index is constructed on the aggregative fixed weights formula.
