

Reference No. 8.25

EXPORTS BY MODE OF TRANSPORT SIX MONTHS ENDED DECEMBER 1975

This bulletin contains statistics of gross weight and value of exports by sea and by air for sections and divisions of the *Australian Export Commodity Classification* and for countries. These statistics are preliminary and subject to revision.

2. **Source of Data.** These statistics are compiled by the Australian Bureau of Statistics from information contained in export entries submitted by exporters or their agents to the Bureau of Customs as required by the Customs Act.

3. **Gross weight.** This is the shipping weight as recorded on export entries and includes the weight of the commodity and its outside package.

4. **Valuation.** Goods sold to overseas buyers are valued at the f.o.b. Australian port of shipment equivalent of the actual price paid to the exporter.

Goods shipped on consignment are valued at the f.o.b. Australian port of shipment equivalent of the current price offering for similar goods of Australian origin in the principal markets of the country to which they are despatched for sale. The value of outside packages is included.

5. **Country.** This means the country to which the goods were consigned at the time of export and may differ from the country of discharge of the goods.

6. **Rounding.** Any discrepancies between totals and sums of components in tables are due to rounding.

7. **Detailed statistics.** Statistics by mode of transport for more detailed commodity items (at the five digit level of the *Australian Export Commodity Classification*) by country are available on request.
