How do I know if he's the same HIV status as me?

AUSTRALIAN FEDERATION OF AIDS ORGANISATIONS

ANCAHRD

NATIONAL ASSOCIATION OF PEOPLE LIVING WITH HIV/AIDS

napwa

In most cases you don't.

If you're willing to fuck without condoms with casual partners, remember:

- only rarely do gay men discuss their HIV status before they fuck
- HIV-positive men may assume you're positive too
- HIV-negative men may assume you're negative too

Assumptions are often wrong.

For more information contact your local AIDS council or visit

www.afao.org.au

LOWER RISK DOES NOT MEAN NO RISK >>>>>>>>>>>>>> **Condoms and water-based lube prevent HIV and other sexually transmissible infections.**
