Chapter 8

PhDs completed in the School of Archaeology and Anthropology 1974-2023

Nicolas Peterson

The following is a list of all PhDs completed in the School between 1974-2023. As there is no master list anywhere, I have done my very best to try to ensure that we have included everybody but apologise if I have left anybody out. Over this period 299 PhDs have been completed: 164 in social anthropology, 78 in archaeology, 50 in biological anthropology and 7 in heritage and museum studies. I thank Lan Tran for the titles of recent theses.

In respect of theses on Indigenous related topics, there have been 50 social anthropology theses, 46 of which are based on residence in an Aboriginal community for at least 12 months; 20 archaeological theses; and 7 biological anthropology theses.

The year listed against the thesis has not been checked against ANU official records and may refer to the year that the thesis was submitted rather than the year the degree was awarded.

There is no significance in the shading of many entries some of which originates from a source document. It has been kept as it facilitates looking through the list.

Author	Title	Year	Discipline
Adams, C.	Melancholic Attachments: The Making and Medicalisation of Aboriginal 'loss'	2006	Social Anthropology
Adams, E.	Losing ground? Issues of autonomy in an urban Indigenous organization	2015	Social Anthropology
Agmen, F.	Conservation strategies for Delacour's langur (Trachypithecus delacouri) in Vietnam: Behaviour comparisons and reviewing a release	2014	Biological Anthropology
Alam, M	The situation and care needs of the elderly in a rural village, Matlab, central Bangladesh.	2006	Biological Anthropology
Alexiou, H.	Engaging 'desengaged' Aboriginal youth: policy, practice and success in youth development programs	2015	Social Anthropology
