---

Dear Julie,

IEEE is the formal publisher of the CD. The proceedings will not be published as a book, but they will appear on the online IEEE database IEEE Xplorer.

Best regards,  
Lars Rasmussen  
ITR

Hi Julie

I'm going to hand ball this one over to Lars as he was in charge of getting the proceedings in order and would be in a better position to answer your queries.

Regards

Belinda

Hi Belinda, I am entering the papers written by my students and academics for AusCTW07. This is a DEST publication requirement for the University, but I have not been able to find who is the publisher for the CD. Can you notify me who published the CD (eg was it IEEE) and if its going to be published in book form.

regards

Julie
