

# AUSTRALIAN BUREAU OF STATISTICS Canberra

## EXPORTS OF MAJOR COMMODITIES AND THEIR PRINCIPAL MARKETS AUSTRALIA, JANUARY 1981

### INQUIRIES

If you wish to obtain information about overseas trade and shipping statistics in addition to that which is contained in this or other related ABS publications, please ring Mr Jim Moulton on Canberra (062) 52 5400 or ABS offices in each State capital.

If you wish to obtain more information about published overseas trade statistics please ring Mrs Rhoda Jarman on Canberra (062) 52 5422, contact our State offices or write to Information Services, ABS, P.O. Box 10, Belconnen, A.C.T. 2616.

For copies of this publication contact Information Services, Canberra (062) 52 6627 or State offices.

### EXPLANATORY NOTES

#### Introduction

This publication contains statistics of Australia's exports of major commodities and their principal markets. The commodities included in this publication are listed on page 3. Statistics for 1980-81 are preliminary and subject to revision.

#### Source of data

2. These statistics are compiled by the Australian Bureau of Statistics from information contained in export entries submitted by exporters or their agents to the Bureau of Customs as required by the Customs Act.

#### Scope of the statistics

3. The statistics of exports presented in this publication are recorded on a *general trade* basis, i.e. export figures include both Australian produce and re-exports.

*Australian produce* is defined as goods, materials or articles which have been produced, manufactured or partly manufactured in Australia, except goods which were originally imported and have undergone only repair or minor operations which leave them essentially unchanged.

*Re-exports* are defined as goods, materials or articles originally imported which are exported in the same condition in which they were imported and goods, materials or articles originally imported which are exported after undergoing repair or minor operations which leave them essentially unchanged.

*Minor operations* include blending, packaging, bottling, cleaning, sorting, husking and shelling.

The statistics are not confined to goods which are the subject of a commercial transaction. Among the items included are exports on Government account including defence equipment.

The following are excluded from recorded overseas trade statistics:

- (a) direct transit trade, i.e. goods being trans-shipped or moved through Australia for purposes of transport only;
- (b) bunkers and stores supplied to foreign owned vessels and to aircraft prior to departure overseas;
- (c) migrants' and passengers' effects exported or imported and parcels post exports and imports of small value, for which Customs entries are not required;
- (d) certain materials under inter-governmental agreements for defence and similar projects for which Customs entries are not required;
- (e) vessels and aircraft engaged in the transport of passengers or goods between Australia and other countries;
- (f) vessels and aircraft purchased for use on overseas routes and any subsequent sales made of such vessels and aircraft.
- (g) fish and other sea products landed in Australia or abroad directly from the high seas by Australian vessels.

#### Statistical period

4. Exports are recorded statistically in the month in which the entries are both finalised by the Bureau of Customs and passed to the ABS for further processing. Regular exporters or their agents may provide details of their export shipments on a periodic rather than an individual shipment basis by submitting weekly or monthly returns. These *periodic returns* must be submitted to the Bureau of Customs within seven days of the period in question covering all shipments during that period. All other exporters are required to report each individual shipment prior to the ship's departure. Approximately 90% of monthly export values are recorded on periodic returns.

The statistical month for Customs outputs (generally ports other than those at which the main Customs Office in each State is located) closes on the 21st of each month, whereas for mainports the statistical month is the calendar month. Because of these factors export statistics for a particular month do not necessarily represent all of the commodities actually exported during that month. Analysis of past data has shown that in aggregate approximately 55% of export trade by value for a particular month reflects actual shipments during that month, 40% by value was actually exported during the previous month with the remaining 5% by value exported in earlier months. For individual commodities the percentage by value representing actual exports in a month may vary considerably.

#### Valuation

5. Goods sold to overseas buyers before export are valued at the free-on-board (f.o.b.) Australian port of shipment equivalent of the actual price paid to the exporter. Goods shipped on consignment are valued at the f.o.b. Australian port of shipment equivalent of the current price offering for similar goods of Australian origin in the principal markets of the country to which they are dispatched for sale. The value of outside packages is included.

#### Commodity classification

6. From 1 July 1978, exports have been classified according to the *Australian Export Commodity Classification* (AECC) (1203.0) which is based on the Standard International Trade Classification, Revision 2. A detailed description of the commodities included in this publication is contained in the AECC. Copies of, or extracts from, this classification may be obtained from offices of the ABS in Canberra and in each capital city.

#### Country

7. For the purposes of overseas trade statistics, a country is defined as a geographical entity which trades, or has the potential to trade, with Australia in accordance with Australian Customs provisions. External territories under Australian administration are treated separately whilst self-governing territories and dependent territories under the administration of other countries may be treated as individual countries in Australian overseas trade statistics. *Exports*: for exports, *country* refers to the country to which the goods were consigned at the time of export. Where the country of consignment is not determined at the time of export, goods are recorded as exported *For orders* and in those cases where it was found to be impossible to determine the destination, as *Destination unknown*.

#### Revisions to previous figures

8. Where revisions have been made to the previously published figures for earlier months of the current financial year, appropriate adjustments are made to the year-to-date figures shown in this publication. For this reason, monthly figures published in previous issues for the current financial year will not necessarily add to the year-to-date figures shown in the latest issue.

9. Statistics shown in this publication were the latest available at the time of compilation. However, revisions may have since been made to the statistics, which could result in differences between figures in this publication and those in other related publications, e.g. *Exports by Commodity Divisions, Australia (Preliminary)* (5402.0).

#### Special returns system

10. More detailed and/or timely statistics, at a more specific commodity level, are available through subscription to the pre-paid Overseas Trade Special Return Service. Subscribers to this service can obtain by post, computer-produced *special returns* according to a limited number of formats, for a charge consistent with the level of detail required. Special returns are available on a monthly or less frequent basis and application forms are available from the Overseas Trade Section in Canberra, or from each State office of the ABS.

#### Related publications

11. Other ABS publications which may be of interest include:

*Exports, Australia* (5404.0)—issued monthly  
*Exports by Mode of Transport, Australia* (5415.0)—issued quarterly  
*Export Price Index, Australia* (6405.0)—issued monthly  
*Minerals and Mineral Products, Australia* (8404.0)—issued monthly.

12. Current publications produced by the ABS are listed in the *Catalogue of Publications, Australia* (1101.0) which is available free of charge from any ABS office.

#### Symbols and other usages

— nil or rounded to zero.

13. Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

R. J. CAMERON  
 Australian Statistician

## DISTRIBUTION OF EXPORTS BY MAJOR COMMODITIES(a)

JANUARY 1981—Total exports \$1,669.8m

SEVEN MONTHS ENDED JANUARY 1981—Total exports \$11,102.1m

(a) Exports of the 'major commodities' shown in these charts are significant exports of particular commodities as shown in the summary on page 5 and represent 55% and 49% respectively of total exports for January and the seven months ended January 1981.
