REMARKS Ledger Machinist - Accounts - £530/8/- per annum

When we installed a ledger machine we advertised for a female machinist, but the responses as far as British citizens were concerned were poor indeed. Although of German extraction, we decided to experiment with this lady but did not engage her in a permanent capacity until we were perfectly satisfied. Her work is excellent, and having proved herself, we have no hesitation in approving of a permanent appointment.

Born 23.2.1924 - 29 years. Married.
Resigned to go into business on her own account.

Record - Quite satisfactory.
